RIDING GEAR

**GEAR UP FOR
UNFORGETTABLE
RIDES**

Heading onto the open road calls for clothing that offers both comfort and a better riding experience.

BRP's specialized collection of Can-Am Spyder riding gear offers ergonomic design, fitted or classic cuts, and uses the latest technologies to adapt to your riding style and the elements.

We invented the Spyder roadster and it is the inspiration behind every item we design for our riding gear collection.

**Get the best out of every ride:
performance, durability and comfort.**

HOT WEATHER

Everything you want or need in warmer conditions without compromising style and protection. Breathable and comfortable, each piece is designed to make riding enjoyable on hot to mild days.

COLD WEATHER

For riders who won't let the cold keep them from the open road. Designed as a total fit with the Spyder roadster, it offers complete protection, ultimate comfort and absolute warmth no matter how cold it is.

ALL WEATHER

Want to pack smart when the weather packs a mixed bag? Get piece of mind with these multifunctional go anywhere in any weather suits. Water and wind proof, breathable with light removable insulation, it's the perfect gear to wear in any condition.

WET WEATHER

A rider essential. 100% waterproof and all-seam sealed, it's a must-pack on every ride because Mother Nature can be fickle.

GEAR UP RIGHT

with Can-Am Spyder riding gear specially adapted to where you ride and the outside temperature, allowing you the ultimate and best performance possible.

SIZING CHART

Chest/Bust //
Measure under your arms, around the fullest part of your chest.

Waist //
Measure around your natural waistline, keeping one finger between the tape and body.

Gloves //
Measure palm width.

Inseam //
Without shoes, from crotch to the floor.

Arm length //
Hand on hip, from center back neck bone, along shoulder point around elbow to bottom of wrist bone.

Helmet //
Measure around your head at the temple above the eyebrow.

For tall sizes, look for the "T" beside sizes. Example: "MT" stands for Medium Tall.

TECHNICAL INFORMATION

HIPORA // Windproof, breathable and waterproof membrane that features unique polyurethane coating technology and delivers excellent moisture management.

DWR // DWR stands for Durable Water Repellency. This treatment helps prevent the outer fabric surface from absorbing water, keeping the outerwear both light and comfortable.

TEFLON // Teflon provides an invisible barrier around fabric fibers to repel water and stains. In addition to retaining its water shedding properties longer than standard Teflon, Teflon HT and HP are also even more resistant to soiling and staining without altering the fabric's color, appearance, structure, texture and breathability. Teflon HT, good up to 20 washes and Teflon HP up to 30 washes compared to manufactured coatings washable only 1 to 5 times.

RPM MAX // Respirative Performance Matrix coating exclusive to BRP riding gear, for perfect climate control. Shell waterproofed, windproofed and breathable to BRP riding gear specifications for demanding riders. Sealed seams and logos. Extra direct venting for more efficient moisture management during intense riding or warm weather.

SYMPATEX // Best membrane on market. Most durable, waterproof, breathable, biodegradable. No loss of technical properties as garment ages. Seams are 100% waterproof sealed with original Sympatex tape. Built with strict set of standards voluntarily applied by manufacturer over and above industry requirements.

OUTLAST // Outlast® technology is the original temperature-regulating technology. Outlast® technology balances your temperature through the use of patented Thermocules™ that absorb and store excess heat, releasing it when you need it most. Products with Outlast® technology respond to your constantly changing body temperature to help keep you comfortable. Not too Hot, Not too Cold®

CORDURA // Fabric designed for living and built to last, providing exceptional resistance to tears, scuffs and abrasions.

TFL COOL SYSTEM // Sun energy reflective technology used on black textile to improve thermal balance for ultimate wearing comfort.

For best results, have someone else take measurements. Measure body in underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

What code represents your size?

- 1 / Find your size.
- 2 / The corresponding code is **THE CODE** you use to complete the part number on your order.
Example: 440 227__90
Size: **M** = code 06
Therefore 440 227 **06** 90

SYMBOLS

Hot weather

All weather

Cold weather

Wet weather

Jacket & Pant zipper connector
Prevents lower back air infiltration, and jacket/pants from riding up/down.

Water resistant
To keep dry in light rain conditions or on short rides.

100% Waterproof
To keep dry in all conditions.

Windproof
To protect from air infiltration.

Removable insulated liner
To adapt to the current temperature. Wear when cold, remove when warm.

Adjusted fit
Fits closer to the body.

Relaxed fit
Looser fit for relaxed riding position.

Pockets for removable protectors
Pouches to insert removable protectors.

HELMETS

CAN-AM ST-1 HYBRID HELMET

Innovative lightweight motorcycle-helmet-inspired concept with multiple functionalities when fitted with optional one-of-a-kind jaws and unique integrated communication capabilities.

BUILD YOUR OWN HELMET: 1 HELMET - 4 COLORS - 3 LAYOUTS

CAN-AM ST-1 HYBRID HELMET

Multiple functionalities when fitted with optimal one of a kind jaws. Ventilation features include two ventilation tab kits (one open and one closed) with anti-fog spray kit, triple configuration flexibility (jet, vented and full face), continuous top ventilation and exhaust. Double D ring closure. Anti-scratch visor, retractable sun visor. Moisture-wicking and breathable removable liner and cheek pads. Optional longer visor, vented and full face jaws sold separately. D.O.T. certified.

SPYDER RS

ROADSTER ACCESSORIES

- Outstanding night visibility. Very close to natural light emitted by the sun.
- Less power energy consumption.
- 3 times more light on the road than conventional halogen headlights.

HID XENON LIGHTING SYSTEM

Our HID Xenon high and low beam lighting system provides revolutionary lighting for 3 times more light on the road compared to traditional halogen headlights. Each light uses a tube of Xenon gas, and small amounts of other noble gases, placed between two high-voltage electrodes that emit a bright bluish/white light when electrodes are activated. Quality German-made Hella¹ ballasts are used to regulate the flow of electricity providing a high intensity beam that never fluctuates. HID light consume only 35W of electricity making them over 3 times more efficient than traditional halogen bulbs. Attractive light is comfortable and very close to the natural light emitted by the sun. Improves night visibility.

Spyder RS 219400083

WAS \$1,069.99

NEW PRICE \$899.99

FOG LIGHTS

Enhances low beam light for better visibility at ground level and on the sides of your vehicle. Uniquely styled halogen fog lamps feature a 35-watt bulb and clear lens with a faceted inner reflector. Easy installation.

OILS & MAINTENANCE

XPS ROADSTER CLEANING AND DETAILING KIT

Includes multi-surface Metal Polish, degreasing Roadster Wash, showroom shine Spray Cleaner & Polish, super absorbent and machine washable Microfiber Towels.

219701712

\$42.49

XPS ROADSTER WASH

A green degreaser that removes dirt and road grime better than any other cleaner. Simply spray on and rinse off. When used as directed, XPS Roadster Wash is safe for all roadster finishes and is biodegradable and non-toxic.

219701703

\$10.99

XPS METAL POLISH

Cleans, polishes and protects most metal surfaces, such as chrome, stainless steel, nickel, aluminum, brass, bronze, copper, platinum, magnesium and more. (Not recommended for use on anodized or clear-coat finishes.)

219701707

\$14.99

XPS SPRAY CLEANER & POLISH

Removes road grime, dirt, grease and bugs from land vehicles as well as scum lines and water marks from watercraft. Spray on then buff out, without water. When used as directed, it leaves a showroom shine that protects against sun damage, ozone damage and dirt accumulation. XPS Spray Cleaner & Polish works great on painted surfaces, fiberglass, chrome and plastics found on your watercraft, motorcycles, snowmobiles and more.

219701706

\$9.99

XPS BRAKES & PARTS CLEANER

A concentrated blend of solvents with a powerful blasting spray that effectively removes grease, grime, brake fluid and other contaminants from brake components and metal parts without the need for disassembly. This brake and parts contact cleaner evaporates instantly and completely leaving no residue to hinder performance. Contains no ozone depleters.

219701705 (US)

219701776 (CA)

\$7.99

XPS MICROFIBER TOWELS

The latest in high-quality detailing towels. Made up of extremely fine fibres, their soft surfaces have been perfected for drying and polishing boats, motorcycles, cars or any shiny finish. XPS Microfiber Detailing Cloths are so absorbent they hold up to seven times their weight in water. Machine washable means they can be used over and over again.

219701759

\$8.49

XPS 4-STROKE BLEND OIL - SUMMER GRADE

Synthetic blend 4-stroke engine oil for the Rotax 4-TEC engine. XPS summer grade synthetic blend on-road vehicle engine oil is a high performance oil developed for riders that demand maximum engine performance and protection during all operating conditions.

1 quart / 946 ml - 293600121
1 US gallon / 3.785 L - 293600122

XPS 4-STROKE OIL CHANGE KIT

Complete maintenance right out of the box: O-Ring, XPS oil, Rotax oil filter and instruction sheet.

SM5 - 219800207
SE5 - 219800208

XPS DOT 4 BRAKE FLUID

Exceeds DOT 3 and 4 requirements. Unique low-moisture formulation providing maximum protection against vapor lock. Recommended in Ski-Doo snowmobiles and Can-Am on-road vehicles.

293600131
\$4.99

XPS 4-STROKE SYNTHETIC OIL - ALL CLIMATE GRADE

Unlike other ordinary 4-stroke motor oils, XPS all climate grade synthetic 4-stroke oil is specifically engineered to meet the particular lubrication requirements of the Can-Am on-road vehicles equipped with Rotax 4-TEC™ 4-stroke engines. Provides easier starting in very cold temperatures.

1 quart / 946 ml - 293600112
1 US gallon / 3.785 L - 293600115

PRE-MIXED ANTIFREEZE/COOLANT

Pre-mixed ready to top up your coolant level. Blended to perform best in our Rotax engines with anti-corrosive additive.

219700362
\$7.49

FUEL STABILIZER

Fuel additive to protect against fuel contamination and residue build-up in carburetors and gas lines. Should always be used before storing your Can-Am on-road vehicle. Suitable for all gasoline engines.

413408601
\$8.49

Your Spyder is an original, and it requires original equipment manufacturer parts.
