## A PURE PARTNERSHIP

Pure Polaris® and FXR®† two brands committed to producing the highest quality, performance riding gear available, have joined forces to offer premium jackets, bibs and boots through Pure Polaris®

Manitoba, Canada-based FXR was founded by Milt Reimer, a former Polaris dealer and pro motocross and snowmobile racer who recognized the need for aggressive snowmobile riding apparel that truly met the needs of both racers and enthusiasts. FXR met that need by developing premium-quality snowmobile race and trail enthusiast riding apparel.

Polaris® FXR apparel provides snowmobilers with warm, comfortable, protective and stylish riding gear that features both FXR and Polaris® branding.

## THE HIGH-PERFORMANCE STANDARD

Move Over GORE-TEX®\* We've Reinvented Staying Dry.

Let the Sweat Out with eVent® Direct Venting Technology, featured in Pure Polaris® Snowmobile apparel. Independent tests show eVent's® Direct Venting Technology moves sweat to the outside of fabric faster than GORE-TEX.® Through a proprietary and patented waterproof membrane, millions of tiny pores allow the fabric to breathe at their full potential.

Only eVent's Direct Venting Technology moves sweat directly to the outside of the fabric in one easy step and at record speed. Even surface waterproof treatments won't block these pores from doing their stuff – releasing moisture and sweat quicker than any other technology on the market today. That keeps even the most high-energy rider dry inside and out.

To see the science behind this amazing technology, go to [www.PolarisKeepsYouDry.com](http://www.PolarisKeepsYouDry.com).

## FXR & RACE INSULATED

NEW FOR '11

NEW FOR '11

FXR COLD STOP ZIPPER LINER

FXR COLD STOP ZIPPER LINER

### A. POLARIS FXR HELIX JACKET INSULATED

Polaris has teamed with FXR® to produce premium-quality apparel for the performance minded rider. The Polaris FXR Helix Jacket features a removable liner and the FXR "Cold Stop" zipper system, along with venting for comfort in all riding conditions.

**SHELL:** 200/420-denier nylon shell.

**WATERPROOF BREATHABLE:** (5000mm/2000g).

**INSULATION:** 8-oz. body/6-oz. sleeves; moisture-wicking thermal-flex zip-in liner.

**VENTING:** Waterproof zippered chest vents with "Dry Vent" mesh inserts.

**POCKETS:** Two hand pockets, one key pocket and inner pockets: cell phone and zippered pocket.

**ADDITIONAL FEATURES:** Removable liner, YKK® front zipper with "Cold Stop" zipper system, magnetic front closure, adjustable wind skirt, adjustable shock cord hem, adjustable collar with soft collar roll and fleece lining, adjustable cuffs.

**SAFETY:** 3M® reflective piping.

2861226 | Black/Red | Men's S-3XL

### B. POLARIS FXR BACKSHIFT JACKET INSULATED

Polaris and FXR®, two brands that share a commitment to premium-quality apparel, have joined forces to create the Backshift Jacket. It features the FXR "Cold Stop" removable liner and front zipper system, allowing the rider flexibility in climate control.

**SHELL:** 200-denier nylon.

**WATERPROOF BREATHABLE:** (5000mm/2000g).

**INSULATION:** 7-oz. body/5-oz. sleeves, "Cold Stop" moisture-wicking thermal-flex zip-in liner with separate front zipper and collar.

**VENTING:** Waterproof zippered chest vents with "Dry Vent" mesh inserts.

**POCKETS:** Two hand pockets, one key pocket and inner pockets: cell phone and zippered pocket.

**ADDITIONAL FEATURES:** "Cold Stop" removable liner with separate front zipper, YKK® front zipper with "Cold Stop" zipper system, magnetic front closure, adjustable wind skirt, adjustable Velcro® tab hem, adjustable collar with soft collar roll and fleece lining, adjustable cuffs.

**SAFETY:** 3M® reflective piping and ellipse on back and sleeve.

2861129 | Black | Men's S-3XL

**NEW FOR '11**

**C. RACE CREW JACKET** INSULATED

Look like a true Polaris Racing crew member with this Race Crew Jacket. In keeping with the Polaris racing standard, this jacket is a winner.

**SHELL:** 660-denier Taslan®/420-denier Ripstop nylon.

**WATERPROOF BREATHABLE:** (3000mm/3000g).

**INSULATION:** Holofil II®\* 200g in body, 150g in sleeves.

**VENTING:** Underarm vents.

**POCKETS:** Two handwarmer pockets, one external chest pocket, one sleeve key pocket and multiple internal pockets.

**ADDITIONAL FEATURES:** YKK®\* front zipper, pre-curved sleeves, microfleece collar, adjustable wrist and waist tabs, snow skirt, D-ring.

**SAFETY:** 3M®\* reflective piping and ellipse patches on sleeves.

**2861102** | Black/Red | Men's S-3XL

**D. RACE SHELL JACKET** UN-INSULATED

You'll take the checkered flag for authentic style in this Race Shell, which has the fit, features and graphics of a Polaris Factory racing shell. Designed to fit comfortably over a safety jacket or chest protector.

**SHELL:** 660-denier Taslan®/420-denier Ripstop nylon.

**WATERPROOF BREATHABLE:** (3000mm/3000g).

**INSULATION:** Non-insulated.

**VENTING:** Two vents in the center of the back.

**POCKETS:** Handwarmer pocket bag.

**ADDITIONAL FEATURES:** Nylon collar and chin guard, stretch cuffs.

**2861100** | Orange/Black | Men's S-2XL

**NEW FOR '11**

**NEW FOR '11**

**E. TRAVEL JACKET** INSULATED

Here is the ideal jacket for driving to and from your favorite riding spots and for wearing around town. It's warm but not heavy and features Polaris Racing graphics.

**SHELL:** 330-denier Reissa®\* Cat's Eye nylon.

**WATERPROOF:** Polyurethane coated.

**INSULATION:** Polyfil®\* insulation, 230g in body, 170g in sleeves.

**POCKETS:** Two handwarmer pockets.

**ADDITIONAL FEATURES:** Adjustable wrist tabs.

# MEN'S JACKETS UN-INSULATED

## A. eVT JACKET UN-INSULATED

This next generation jacket, featuring eVent® fabrics, breathes faster than GORE-TEX® and other waterproof fabrics. Equipped with more features, including full zip vents and extra pockets, eVT is for the active rider. Add a Polaris layering system to ride warm and dry all day. Originally developed for mountain use, more performance riders are realizing the benefits of the shell and layering way of dressing for the ride.

**SHELL:** 100% Nylon Shell.

**WATERPROOF BREATHABLE:** eVent® membrane.

**INSULATION:** Un-insulated, mesh lined.

**VENTING:** Full zip vents at underarm and back (vertical vents, won't interfere with backpack).

**POCKETS:** Four exterior pockets, one with chamois cloth inside to wipe goggles/shield, two interior pockets.

**ADDITIONAL FEATURES:** Waterproof two-way front zipper, zipper garages on exterior pockets create tight seal. Microfleece rollover collar for rider comfort. Snow skirt, neck drawcord and adjustable back drawcord keep snow out. Wrist snaps reduce ice buildup.

**2860112** | Red/Black | Men's M-2XL (No Talls)

**2869030** | Gray/Camo | Men's S-3XL, MT-XLT

**2869031** | Black | Men's S-3XL, MT-XLT

See pgs. 12 & 13 for layering options

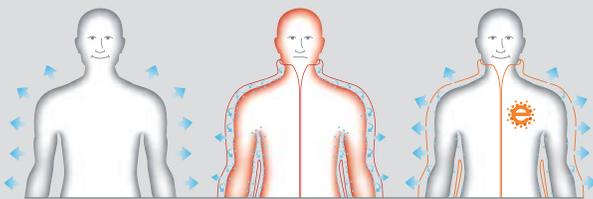

## LET THE SWEAT OUT WITH EVENT DIRECT VENTING TECHNOLOGY

Looking for snowmobile apparel that breathes better than GORE-TEX®? Stop looking. Pure Polaris offers outerwear for active, performance riders featuring eVent® fabrics. It's just as waterproof as GORE-TEX®, but has far greater breathability. Sweat moves directly to the outside of the fabric fast. That keeps even the most high-energy rider dry inside and out.

To see the science behind this amazing technology, go to [www.PolarisKeepsYouDry.com](http://www.PolarisKeepsYouDry.com).

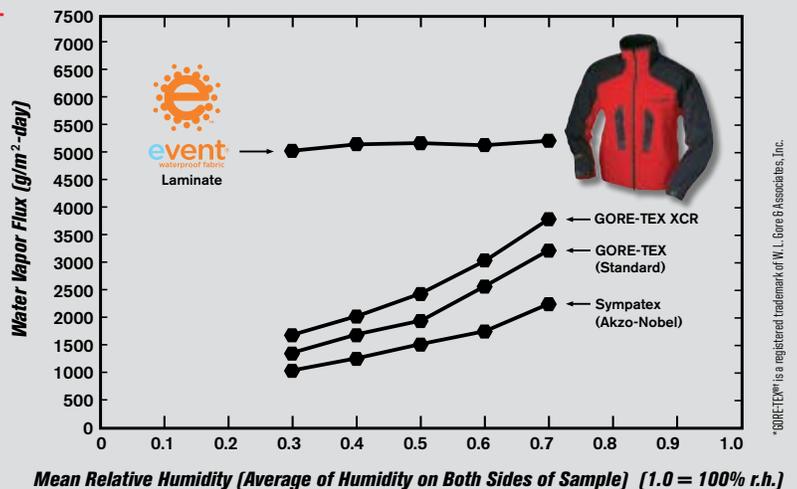

eVent Fabrics allow sweat to quickly evaporate to the outside, keeping you dry on the inside. Simply said, eVent Fabrics **let the sweat out.**

no jacket  
natural evaporative cooling

ineffective evaporative cooling  
you soak in your own sweat

eVent Fabric  
evaporative cooling maintained with eVent Fabric

Test results from US Army's Soldier Systems Center, Natick, MA using a Dynamic Moisture Permeation Cell (DMPC, ASTM F2298). Courtesy of Phillip W. Gibson

### "BREATHABILITY" COMPARISON OF COMMERCIAL OUTERWEAR SHELL LAYERS

In a test administered by the US Army's Soldier Systems Center in Natick, MA, eVent® fabric was proven to be more consistently breathable and more breathable overall than GORE-TEX® while GORE-TEX® technology required time and moisture to activate breathability, eVent® fabric began breathing from the moment the test started – and at a much higher level.

## ADULT SIZE CODES FOR ORDERING

**B. OCTANE JACKET** UN-INSULATED

This Octane Jacket delivers cutting edge styling with its plaid pattern shell and its waterproof/breathable performance enhances the comfort for active riders. It is un-insulated so a rider can layer to suit the day's weather and vents keep a rider comfortable during aggressive riding.

- SHELL:** 100% nylon with plaid pattern.
- WATERPROOF BREATHABLE:** Reissa® (8,000mm/8,000g).
- INSULATION:** Un-insulated, mesh-lined.
- VENTING:** Full zip vents at underarm and back (vertical vents, won't interfere with backpack).
- POCKETS:** Four exterior pockets, one with chamois cloth inside to wipe goggles/shield, two interior pockets.
- ADDITIONAL FEATURES:** Waterproof two-way front zipper, zipper garages on exterior pocket create tight seal. Microfleece rollover collar, snow skirt, neck drawcord and adjustable back drawcord keep snow out. Wrist snaps reduce ice buildup.

**TOBE**  
TECHNOLOGY

**C. TOBE RISE JACKET** UN-INSULATED

The ToBe® Rise Jacket provides waterproof/breathable protection for backcountry, deep snow and mild weather riding. This ventilated, un-insulated jacket has several convenient pockets, a removable hood and fresh, trendy styling.

- SHELL:** 500-denier/200-denier canvas nylon.
- WATERPROOF BREATHABLE:** TOBETECH® membrane (10,000mm/5,000g).
- INSULATION:** Un-insulated.
- VENTING:** Underarm vents.
- POCKETS:** Six front external pockets, two internal pockets.
- ADDITIONAL FEATURES:** Waist snaps and shock cord-adjustable hem. Snow skirt has snaps that attach to pants (sold separately) to create a seal akin to a one-piece suit.

# MEN'S LAYERING

## A. ASCENT SOFTSHELL JACKET

An ideal component of an effective layering system or worn alone, the Ascent Softshell Jacket is versatile, comfortable and functional. It provides warmth without being heavy or bulky and works well with un-insulated waterproof/breathable jackets.

**SHELL:** Polyester.

**WINDPROOF:** (3000mm/3000g)

**VENTING:** Underarm vents

**POCKETS:** Two handwarmer pockets, one external chest pocket.

**ADDITIONAL FEATURES:** Waterproof front zipper, adjustable draw cord collar, adjustable draw cord waist, micro fleece rollover collar.

**2861127** | Black/Gray | Men's S-3XL

**NEW FOR '11**

**NEW FOR '11**

## B. WINDBLOC JACKET

Here is a jacket that seals out heat-robbing wind to keep a rider comfortable both out on the snow and around town. It provides warmth without being heavy or bulky and its fleece lining is ultra-comfortable. It makes an ideal component to a layering system.

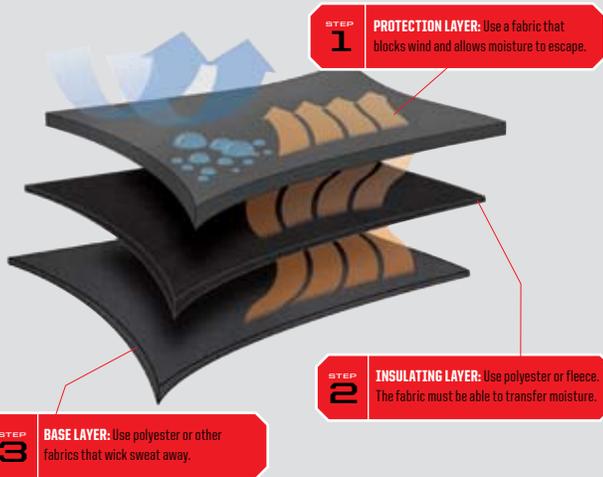

**SHELL:** 3-layer laminate with 100% knit polyester shell, windproof film and inner polyester fleece.

**WINDPROOF BREATHABLE:** Windproof and breathable.

**POCKETS:** Two handwarmer pockets and one external chest pocket.

**2861150** | Black | Men's S-2XL

### THE ANATOMY OF EFFECTIVE LAYERING.

There is no perfect layering system. Everyone has different needs. But there are basic rules for layering.

- Base layer needs to wick sweat away from your skin. Polyester is good, cotton is bad.
- Insulating layer must work with the base layer to transfer moisture. Polyester and fleece are best.
- Outer layer must block wind and also allow moisture to escape. Add or remove layers as needed to stay warm and comfortable.

#### STEP 1 BASE LAYER

- Performance Shirt - #2860056
- Wicking Base Layer Shirt - #2868046
- Wicking Base Layer Pant - #2868047

#### STEP 2 INSULATING LAYER

- Backcountry Riding Shirt - #2861147, 2861148
- Quarter-Zip Shirt - #2869083
- Barrier Fleece Jacket - #2861149
- Barrier Fleece Vest - #2869082
- Windbloc Jacket - #2861150
- Ascent Softshell Jacket - #2861127

#### STEP 3 PROTECTION LAYER

- eVT Jacket - #2860112, 2869030/31
- Octane Jacket - #2860113
- ToBe Rise Jacket - #2861223

The three layering combinations above contain different layers giving you different results. Try adding and removing layers to meet your level of warmth and comfort. Ideal layering system under un-insulated jackets & bibs for a temp range of 10° F to 25° F.

### ADULT SIZE CODES FOR ORDERING

See pg. 35 for size & fit charts.

Don't forget to add the two-digit size code at the end of the part number!  
See size availability in the item description, not all sizes available in all styles.

XS = 01	M = 03	M - Tall = 05	L - Short = 07	XL = 09	XL Tall = 11	2XL Tall = 13
S = 02	M - Short = 04	L = 06	L - Tall = 08	XL Short = 10	2XL = 12	3XL = 14

# THE THREE W'S TO COMFORT: WICKING, WARMTH, WATERPROOF

## STEP 1 - BASE LAYER LIGHT WEIGHT LAYER

### C. PERFORMANCE SHIRT

An ideal base layer, the Performance Shirt provides moderate warmth without adding weight or bulk and it wicks rather than absorbing moisture to keep a rider warm, dry and comfortable.

- » 100% Polyester
- » Microfiber moisture wicking fabric
- » Provides thermal insulation
- » Pill-proof durability

**2860056** | White | S-2XL

### D. WICKING BASE LAYER

An ideal base layer, the wicking base layer provides moderate warmth without adding weight or bulk and wicks rather than absorbs moisture to keep a rider warm, dry and comfortable.

- » 100% Polyester
- » Microfiber moisture wicking fabric
- » Pill-proof durability
- » Features mock neck design

**2868046** | Mock Neck, Black | S-2XL  
**2868047** | Men's Pant, Black | S-2XL

## STEP 2 - INSULATING LAYER MEDIUM WEIGHT LAYER

**NEW FOR '11**

### E. BACKCOUNTRY RIDING SHIRT

This versatile shirt will be your go-to item of winter apparel. It's ideal as part of a layering system and is also comfortable around the house or around town.

- » 100% Polyester
- » Partial zipper front for comfort control
- » Front zip storage

**2861147** | Black/Gray | S-2XL  
**2861148** | Red/Gray | S-2XL

### F. QUARTER-ZIP RIDING SHIRT

An ideal medium weight layer for those colder days. Designed for comfort and warmth, without adding bulk.

- » 100% Polyester
- » Shirt features a zip mock neck
- » Pant features draw cord waist & rear pocket

**2869083** | Black | S-2XL

## STEP 2 - INSULATING LAYER HEAVY WEIGHT LAYER

**NEW FOR '11**

### G. BARRIER FLEECE JACKET & VEST

Dial up the warmth and comfort with the Barrier Fleece Jacket and vest. Its 100% polyester fleece inner layer retains body heat to keep a rider comfortable. The brushed exterior layer provides a finished look that makes this Jacket great for wearing around town.

- » 100% Polyester, anti-pill microfleece
- » Jackets with drop tail hem & elastic drawcord
- » Left chest pocket

**ADDITIONAL FEATURES:** Removable and adjustable suspenders. 2-way YKK® front zipper. Easy Velcro® side waist adjustment. Full length YKK® side leg zippers with integrated venting. Thermal seat insert, dry seat insert, pre-curved knees. Drop down adjustable hem length. Hip stretch insert. Velcro® / snap ankle closure.

**2861135** | Black | Men's S-3XL

## E. REACTOR BIB INSULATED

Great new styling enhances the appeal of the high-performance Reactor Bib, which is a durable nylon bib with a waterproof insert on the hip and knee. Side stretch panels and stretch knee panels are among the features that ensure great flexibility and a comfortable fit.

**SHELL:** 330-denier Reissa® Cat's Eye nylon

**WATERPROOF BREATHABLE:** Reissa® (3000mm/3000g).

**INSULATION:** Thermolite® Plus 200g fixed insulation.

**POCKETS:** Two hand warmer pockets, one bib pocket.

**ADDITIONAL FEATURES:** YKK® 2-way side zippers. 5-ply stretch side knit. Adjustable Polaris logo suspender. Stretch knee panels. Velcro® flex waist adjustment system. Fully taped seams. Boot tabs to secure bibs to boots. Reinforced hip, knee and instep.

**SAFETY:** 3M® reflective piping on upper knee and ellipse patches on back of leg.

**2861136** | Black | Men's S-5XL

Includes Talls (M-2XL)

## F. RIPPER BIB INSULATED

Riders who hit the trails no matter how extreme the weather will find they can rely on the Ripper Bibs premium insulation and construction to stay warm and comfortable.

**SHELL:** 420-denier Ripstop nylon/660-denier Taslan® 500-denier heavy oxford fabric on knees, lower inner leg for durability.

**WATERPROOF BREATHABLE:** (3000mm/3000g).

**INSULATION:** Thermolite® Plus 200g fixed insulation.

**POCKETS:** Two hand warmer pockets.

**ADDITIONAL FEATURES:** Pre-curved knees. Gusseted crotch. Four-way stretch side panels. Lower back protective padding. Adjustable suspenders. Boot lace tabs. Waist tabs and leg gaiters.

**SAFETY:** 3M® reflective ellipse on back of legs.

**2861138** | Red | Men's S-3XL

**2861139** | Black | Men's S-3XL

Includes Talls (M-2XL)

## G. INSULATOR BIB INSULATED

The Insulator Bibs deliver outstanding value along with warmth, comfort and versatility. An innovative new hem adjustment system lets a rider adjust the bottom of the legs up to 2" for a proper fit for riding and other winter activities.

**SHELL:** 450-denier Oxford polyester.

**WATERPROOF BREATHABLE:** (600mm/600g) polyurethane coating.

**INSULATION:** Polyfill® 170g fixed insulation.

**POCKETS:** Two hand warmer pockets.

**ADDITIONAL FEATURES:** YKK® 2-way side zipper. 5-ply stretch side knit. Boot tabs secure legs to boots. Waterproof seat insert. New adjustable hem system with Velcro® closure and snap. Leg length can be shortened up to 2" quickly and easily.

**SAFETY:** 3M® reflective ellipse patches on back of leg.

## THE ANATOMY OF EFFECTIVE LAYERING.

### STEP 1 / BASE LAYER

1

- Performance Shirt - #2860065, 2860066

### STEP 2 / INSULATING LAYER

2

- Backcountry Riding Shirt - #2861151
- Barrier Fleece Jacket - #2861152
- Abby Jacket - #2860128
- Ascent Jacket - #2860122

### STEP 3 / PROTECTION LAYER

3

- eVT Jacket - #2869047, 2869046

The three layering combinations above contain different layers giving you different results. Try adding and removing layers to meet your level of warmth and comfort. Ideal layering system under eVT Jacket & Bib for temperatures over 10°F.

### A. PERFORMANCE SHIRT

**MATERIAL:** 100% Polyester, pill-proof durability.

**ADDITIONAL FEATURES:** Microfiber moisture wicking fabric. Provides thermal insulation.

**2860065** | White | S-XL

**2860066** | Black | S-XL

### B. WOMEN'S BACKCOUNTRY RIDING SHIRT

This versatile Backcountry Shirt will become an essential part of any winter wardrobe. It's ideal as part of a layering system and is also comfortable and stylish around the house and around town.

**SHELL:** 100% Polyester.

**ADDITIONAL FEATURES:** Partial zipper front for comfort control, Stylish embroidered graphics, including Polaris ellipse on left chest.

**2861151** | Black | S-2XL

### C. WOMEN'S BARRIER FLEECE JACKET

Dial up the warmth and comfort with the Women's Barrier Fleece Jacket. Its 100% polyester fleece inner layer retains body heat to keep a rider comfortable. The brushed exterior layer provides a finished look so this jacket can be worn around town.

**SHELL:** 100% Polyester, anti-pill fleece.

**POCKETS:** Multiple storage pockets.

**ADDITIONAL FEATURES:** Drop tail hem & elastic drawcord.

**2861152** | Black | S-2XL

### D. ASCENT SOFTSHELL JACKET

An ideal component of an effective layering system or worn alone, the Ascent Softshell Jacket is versatile, comfortable and functional. It provides warmth without being heavy or bulky and works well with waterproof/breathable jackets.

**SHELL:** Three-layered: hard-face outer, windproof middle and soft fleece interior.

**WINDPROOF:** (3000mm/3000g)

**POCKETS:** Two zippered exterior pockets and one chest pocket.

**ADDITIONAL FEATURES:** Drawcord waist helps keep wind and snow out.

**2860122** | Pearl | S-XL

### E. ABBY JACKET

Great for layering with 100% polyester fleece to retain body heat or just wear around the cabin.

**SHELL:** 100% Polyester, anti-pill fleece.

**POCKETS:** Two zippered exterior pockets.

**2860128** | Chocolate | S-2XL

**PURESEAL TECHNOLOGY WORKS BY REDIRECTING YOUR BREATH OUTSIDE THE HELMET.**

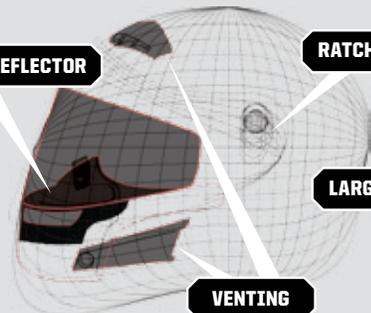

**THE HELMET SHIELD STAYS CLEAR OF FOG, PROVIDING THE RIDER WITH MAXIMUM VISIBILITY.**

The colder it gets, the quicker your helmet fogs up. You can either open your face shield and risk frostbite, stop every mile or so to wipe off the fog...or buy a Pure Polar helmet with PureSeal™ technology. Both the AF-1.5 and Cyclone helmets feature strategic venting, a closed-cell foam for a positive seal and telescoping breath exhaust ports. Breath is deflected down and out. That keeps your face shield clear for maximum visibility and rider comfort.

BREATH DEFLECTOR

RATCHET SYSTEM

LARGER LINER SIZING

VENTING

## C. MODULAR HELMET

This helmet provides riders with the ultimate combination of thorough protection, comfort, visibility and convenience. The entire front of the helmet lifts open to make it easy to check a map or have a trailside chat and the aviator-style breath deflector is among the effective elements that prevent fogging of the shield.

**SHELL:** Injection-molded plastic shell.

**SHIELD:** Dual-pane shield. Anti-fog & anti-scratch coatings. Optional electric shield (2861235).

**VENTS:** Two intake vents, six exhaust vents.

**INTERIOR:** Removable and washable lining system.

**ADDITIONAL FEATURES:** Double lens, quick-release strap system, two exhaust vents can be open or closed. Comes with a Polaris decal that can be placed wherever rider wants.

## C. POLARIS OAKLEY PROVEN GOGGLE

Polaris has teamed up with Oakley® the most recognized name in performance eyewear, to create the Polaris Oakley® Proven Goggle. It provides a rider with superb visibility, great comfort and anti-fog qualities that keep the view clear throughout the ride.

- » Lexan® lens material provides 100% protection against UVA, UVB, UVC and harmful blue light
- » F2 anti-fog lens coating
- » Flexible O Matter® chassis
- » Triple-layer foam with polar fleece lining
- » Optimized to fit most face sizes
- » Metal icon accent
- » Ventilation to provide airflow for exhaust of warm, moist air
- » Polaris branding on the adjustable wide strap that accommodates the widest helmet designs

**ADDITIONAL FEATURES:** Stretch Cordura-like panel on thumb, nose wipe on back of thumb.

2861161 | Black | S-XL

**GLOVE COMPARISON CHART**

**CHOOSING THE RIGHT GLOVE**

Pure Polaris Gloves are designed to perform at the highest level for snowmobiling. With less insulation in the palms than a traditional winter glove, they allow you to hold handlebars more comfortably and also take full advantage of heated grips. Within our line there are heavier or lighter gloves to suit your personal preference. See the chart to the right to help choose the perfect fit.

RATED ON A SCALE OF:	BEST BETTER GOOD			WARMTH	WATERPROOF	BREATHABILITY	
	●	●	○				
Primo	●	●	○	●	●	●	
Crank	●	●	○	●	●	●	
SuperMax	●	●	○	●	○	●

Tahoe	○	○	○	○	●	●	
Big Horn	○	○	○	○	○	●	
Racing	○	○	○	○	○	○	

eVent's® Direct Venting Technology moves sweat the outside of fabric faster than GORE-TEX®\* Through a proprietary and patented waterproof membrane, millions of tiny pores allow the fabric to breathe at their full potential.

PALM BULK REDUCTION (PBR) eliminates the bothersome bulk found in the palms of other gloves. Gloves with PBR fit better, feel better and offer much greater touch control without sacrificing warmth or durability.

\*GORE-TEX® is a registered trademark of W. L. Gore & Associates, Inc.

**G. APPROACH GLOVE** INSULATED

**SHELL:** 660-denier Taslan®  
**WATERPROOF BREATHABLE:** eVent® fabric.

- » Includes rail wheels and mounts

**2876673** | Wheel Kit, 6, '07-11 IQ RMK

**2878251** | Wheel Kit, 2, '11 PRO-RIDE RMK

**E. ICE SCRATCHERS**

- » Fastens to rails to throw ice chips into suspension
- » Drag in snow, lubricating hi-fax
- » Allows removal of wheels equivalent to 4 lbs.

**2876256** | Ice Scratchers

**F. REAR OUTER WHEEL KIT**

- » Necessary on an IQ Shift™ for studding track
- » Comes complete with wheels, bearings and hardware for a 3 wheel axle assembly

**2876337** | '08-11 IQ Shift

**G. SAWTOOTH BRAKE DISC**

- » 1 lb. weight savings
- » Less rotating mass
- » Improved acceleration
- » Fits all IQ models '06-09

**2876922** | '06-09 IQ 2-stroke models

**H. HANDLEBAR RISER (ALUMINUM)**

**2871107** | ProTaper® '09-10 Dragon RMK & Assault RMK, EDGE, 1" Handle Bar Riser\*

**2876264** | '07-11 IQ, RMK, 2.38" Handle Bar Riser

**2876265** | '07-11 IQ, RMK, 3.75" Handle Bar Riser

**2876266** | '07-11 IQ, RMK, 5.25" Handle Bar Riser

\* Also fits '11 Pro-RMK and Switchback Assault

# SHOCKS HITCHES & ELECTRICAL

## A. WALKER EVANS® PIGGYBACK NEEDLES

- » High-performance trail shocks that offer a wide range of adjustment from extremely compliant for trail chatter to very aggressive for big hits
- » This is enhanced by exclusive Internal Needle Valve Technology that resists bottoming and allows use of the full shock stroke as much as possible
- » 16-position external compression adjustment
- » Wide range of adjustment for all riding styles
- » Springs included
- » Piggyback-style is the ideal fit for IQ plastic with aluminum front bumper

**2878194** | '07-11 IQ 121," Switchback, w/new plastic, Front

**2878252** | RMK Length, Front, w/new IQ-style plastic

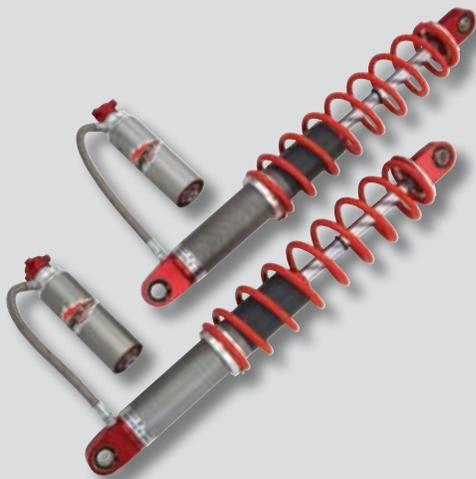

**2876670** | Assault Rear (coil-over front track shock, clicker rear track shock)

**NEW  
FOR '11**

**WALKER EVANS COIL-OVER SHOCKS** Premium shocks with 16-position compression adjusters and remote reservoirs offer the best in tunability and fade-proof performance. Unique needle design uses hydraulic force at the end of the stroke to eliminate harsh bottoming.

Rear Shocks

IFS Shocks

Front Shock Debris Deflectors

## B. WALKER EVANS® NEEDLES

- » High-performance trail shocks that offer a wide range of adjustment from extremely compliant for trail chatter to very aggressive for big hits
- » This is enhanced by exclusive Internal Needle Valve Technology that resists bottoming and allows use of the full shock stroke as much as possible
- » 16-position external compression adjustment
- » Wide range of adjustment for all riding styles
- » Springs included

**2876040** | '07-11 IQ 121," Switchback, Rear

**2876041** | '07-11 IQ 121," Switchback, Front

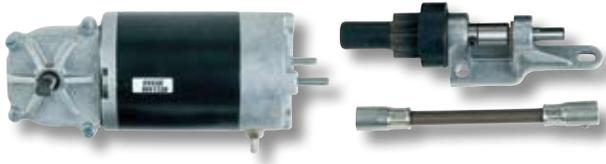

## C. WALKER EVANS®\* AIR SHOCKS

- » The shock of choice for deep-snow riding
- » 6 lb. weight savings for full set of four shocks
- » 4 lb. savings for IFS alone
- » High performance setup for aggressive off-trail mountain conditions
- » Air Sprung for weight savings and a super compliant ride while taking big hits with little bottoming

**2877457** | '07-11 RMK, Front, pair

**2876008** | '07-11 RMK, Rear (Front air and rear air track shock)

**2876984** | Front Shock Debris Deflectors, each

**D. KEY-OPERATED ELECTRIC START KITS**

- » This is the ultimate convenience feature you can add to your sled.
- » Easier to use and more consistent than pull starts
- » Nice for extreme cold conditions
- » Electric Start Kits do not include batteries

<b>2877257</b>	'08-11 IQ 600/700/800 Cleanfire

# TRACKS & CONVERSIONS

## DEEP SNOW: SERIES 5.1 TRACK »

» Industry leading deep powder track. For 8T Drive sprockets, 2.86" pitch. Available in 146," 155" and 163" lengths.

- » Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- » Soft and flexible tips for superior performance in deep snow

## DEEP SNOW: SERIES 4 TRACK »

» The standard in 2" deep snow tracks. For 9T Drive sprockets, 2.52" pitch. Available in 144," 151," 159" and 166" lengths.

- » Equal parts versatility and durability
- » Stiff lug base for long wear and hard-pack performance
- » Soft and flexible tips for superior performance in deep snow

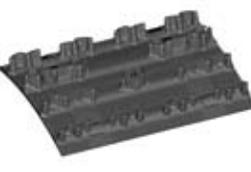

## DEEP SNOW: COMPETITION TRACK »

» The proven 2.125" hillclimb track. Available in 146" and 155" lengths.

- » Hillclimb-specific pattern
- » Stiff durometer construction for maximum traction in hard snow
- » Pre-ported for better snow cleanout

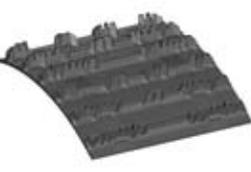

## CROSSOVER: COBRA TRACK »

» The trail track that puts more power to the snow. Excellent powder performance without compromising trail ride ability. Available in 120," 121," 136" and 146"

- » Rigid columns for good hard pack capability
- » Stepped columns and angled cutting edge enhance traction, improved handling in corners
- » Connected "cupped" lugs for outstanding performance in soft/loose snow

## ON-TRAIL: RIPSAW TRACK »

» The aggressive side bite for better cornering, the standard in performance trail tracks. Available in 120," 121," 128" and 136" lengths.

- » A high-performance trail track with highly aggressive angled profiles
- » Outstanding forward and lateral bite
- » Superior handling and acceleration in wide variety of conditions

# STUDS

Studs at work. Increased acceleration and more controlled braking.

## HOW TO GET PURE TRACTION ON ICE AND HARD-PACK SNOW.

Adding traction products to your sled improves acceleration, braking and steering control, especially on hard-pack snow and ice. The more aggressive rider you are, the more traction you need. The key is making sure you have the right balance of traction products on your track and skis.

- 1) Determine how to match your riding style and sled model to the correct number of studs, type of studs and stud pattern.
- 2) Determine the right type and length of turning carbides necessary to balance traction and optimize steering.
- 3) Make sure you have the necessary parts installed to prevent the studs from damaging your sled's tunnel and cooling system.

**Problem 1:** Back end is loose in turns.

**Cause:** Too much turning carbide on skis in relation to the number of track studs.

**Problem 2:** Front end pushes in turns.

**Cause:** Too little turning carbide on skis in relation to the number of track studs.

**Solution:** Ideal Traction

Sled turns like it's on rails. Amount of turning carbide on skis is balanced with the number of track studs.

### A. WEAR STRIP KITS

**B. GRIP KITS**

» Value Pack that includes everything you need to stud your track: Gold Digger studs, nuts, backers, stud template, marker and drill bit

**C. SIGNATURE CARBIDE STUDS**

- » Highly corrosive resistant for harsh conditions
- » 60° carbide pin for consistent performance
- » Impact resistant one piece head

**D. TRACTION MASTER® CARBIDE STUDS**

- » High-carbon alloy steel for maximum durability
- » Head is concave to grip rubber track and maximize rigidity for increased traction control
- » Easy push-through design
- » 5/16" diameter shank

**E. ALUMINUM SQUARE BACKER PLATE**

- » Strong, lightweight alternative to steel
- » Raised crown for dependable support
- » Available for 5/16" studs

**F. STEEL ROUND BACKER PLATE**

- » Raised crown for dependable support and the prevention of stud pull through

**G. STUDDING TEMPLATE AND DRILL BIT**

- » For precise placement of traction studs
- » Template allows setting of drilling marks on track surface
- » Holes are clearly labeled and instructions included

**GRIP KIT STUDS**

## PERFORMANCE SKIS

### A. POLARIS IQ2 SKI

Improved performance, control and cornering

- » Aggressive profile for improved trail control
- » Upgrades easily from a steel ski
- » Precision construction, performance tested
- » Less handlebar vibration, smoother feeling ride
- » Includes ski toe & hardware
- » Carbide skags sold separately

**2877680-293** | Indy Red, Each

### B. POLARIS RACE SKI

The race-proven ski for aggressive cornering

- » Factory race proven, aggressive 90° snocross keel
- » Provides improved control and better cornering, reduces darting
- » Wide tip for increased flotation
- » Includes ski toe & hardware
- » Carbide skags sold separately

**2900256-070** | Black, Each

**2900256-293** | Indy Red, Each

### C. POLARIS SADDLELESS SKI

A great upgrade from a steel ski

- » Improved control
- » Precision construction, performance tested
- » Less handlebar vibration, smoother feeling ride
- » Includes hardware and ski stop
- » Carbide skags sold separately

**2874186-070** | Black, Each

### D. POLARIS SKI TOES

- » Fits all Polaris composite skis for that customized sled look

**2876062-293** | Indy Red, Pair

## DEEP SNOW SKIS

### E. GRIPPER SKI

The standard in deep snow performance

- » Deeper upper and lower keel design allows for the best performing ski in loose and hardpacked snow conditions
- » Integrated traction on top of ski for superior grip
- » Deep, 1½" keel for positive steering in loose snow
- » Large, forward biased rocker for reduced steering effort
- » Wide, 6¾" ski for increased flotation
- » Includes ski toe & hardware
- » Carbide skags sold separately

**2877679-293** | RMK Ski - '07-11 | Indy Red, Each

**2877679-070** | RMK Ski - '07-11 | Black, Each

### F. POWDER PRO II SKI

The ultimate in deep snow performance

- » Provides the ultimate in loose snow performance for maximum flotation and precise steering control
- » Mounting brackets and carbide skags required and sold separately

**2874810** | Red Powder Pro II Ski, Pair, kit includes ski loop

**2874813** | Black Powder Pro II Ski, Pair

**2875539** | Powder Pro Ski Saddle Brackets, Pair

**2876083** | 6.25" 90° Pro Ski Carbide Skag, Pair

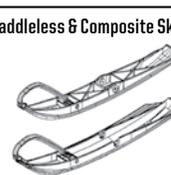

**2876082** | 6.25" 60° Pro Ski Carbide Skag, Pair

Precision-built to machine specifications by Woody's®†

**woody's**

Available with 3" to 10" of carbide in 60°, 75° and 90° styles

## A. RAMP TRAILERS

The ramp trailer is the ultimate in reliable performance and quality. The ramp is easily accessed with the self-stowing Slide-n-Guide system. The heavy-duty ramp easily attaches on the V-front of the trailer for unloading and on the rear of the trailer for loading. Works great for both wheeled and track vehicles. The two standard Versa-Tracks™† make it easy to configure your load and secure it down. Whether you want to haul one sled, six sleds or any type of load, there is a Polaris Floe®† ramp trailer for you. Available in 10', 12', 14', 16', 20', 26' and 28' lengths. (102" wide).

## B. TILT TRAILERS

The perfect combination of quality and value. Patented fast-action tilt clamp is easier because it eliminates the hitch pin which eliminates the vibration and sloppy fit common to inferior trailers. Available in 10' and 12' lengths.

## C. ENCLOSED TRAILERS

Imagine owning an enclosed trailer that tows so easily you'll think it's an open bed trailer! The exceptional aerodynamic design provides you with greater fuel economy and passing power. All aluminum welded frame with heavy .032 gauge smooth aluminum skin. Opens front and rear for easy drive-in/drive-out loading and unloading. Available in 12', 14', 16', 22' and 28' lengths.

## D. POLARIS ACE TRAILERS

A world-class combination of style, durability and simplicity. This ultra-rugged high-density polyethylene trailer body with the high-strength extruded aluminum frame makes this the most functional tilt trailer you'll ever own. Bed size is 70" wide by 10' long with 20¾" sides. Available in fender and wheel-well models.

## E. TIE DOWN STRAPS

» Reliable high-test tie down, secure sleds quickly and confidently

**2871182** | (2) Pack | Red

**2871181** | (2) Pack | Black

## F. LOCKING TIE DOWN STRAPS

» Holds 1,200 lbs. (544kg) features patented safety lock

**2859031** | (2) Pack | Black

**2854721** | (4) Pack | Red

**2854722** | (4) Pack | Black

## G. SLED DOLLIES

» Move that sled around the garage with ease.

**2856656** | Red

# BELTS

## PURE POLARIS: DRIVE BELTS

- » Engineered, tested and guaranteed to fit and perform on Polaris machines
- » Lowest tolerances (0.188") – provide the most consistent performance
- » Precision measured to ensure stringent tolerances are met for both length and width

Use Genuine Polaris Belts for max performance

### COMPOUND AND CONSTRUCTION IDENTIFICATION

#### STANDARD

- Good trail belt for lower horsepower engines
- Best suited for low speed operation

#### CVT

- Increased service life over Standard belts
- May need 1-2 grams heavier drive clutch weight over Standard belts

#### KEVLAR

- Increased service life over CVT belts by up to 8 times
- Cut edges belt; consistent like PBO belts
- Short break-in period
- May need 1-2 grams heavier drive clutch weight over CVT belts

#### PBO

- Extreme duty belt; longest service life
- CNC ground edges on each belt
- Longer break-in period

\*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

# PURE POLARIS: TECHNOLOGY DRIVEN LUBRICANTS

When it comes to maintaining top performance out of your Polaris snowmobile, there is no better choice than Pure Polaris lubricants and fuel. We engineer products that meet the ever evolving technology of today's high-performance engines. Designed and tested in conjunction with motors as they're developed ensures you get an oil perfectly matched for your sled.

**PURE POLARIS: THE TECHNOLOGY IS BUILT RIGHT IN**

- » Engine Technology: Tighter tolerances, higher operating temperatures and new technologies drive the need for better performing oil
- » Emissions Requirements: The performance levels of today's engines combined with need for low emissions, makes a clean burning oil essential.
- » Responding to Customers' needs: Polaris understands the rider and designs oil to meet customer needs with attributes such as easy-start and smokeless/low-odor formulations.

**A. VES GOLD PLUS SYNTHETIC 2-CYCLE OIL**

- » Best low temp performance of all Pure Polaris oils
- » Cleaner burning, low odor, smokeless oil formula
- » Designed to improve exhaust valve performance
- » Offers maximum engine protection at high RPM
- » Meets Category IV low temperature requirements
- » Pre-mix or injection

- 2877882 | Quart | 6 per pack
- 2877959 | 2 Quart | 8 per pack
- 2877883 | 1 Gallon | 4 per pack
- 2877884 | 2.5 Gallon | 2 per pack
- 2877885 | 16 Gallon | 1 per pack
- 2877886 | 55 Gallon | 1 per pack
- 2877892 | 330 Gallon | 1 per pack

**B. PREMIUM SYNTHETIC BLEND 2-CYCLE OIL**

- » Excellent low temperature performance
- » Most advanced synthetic blend 2-cycle lubricant on the market
- » Excellent long term engine protection and detergency
- » Pre-mix or injection

- 2875035 | Quart | 12 per pack
- 2875036 | 1 Gallon | 6 per pack
- 2875038 | 2.5 Gallon | 2 per pack
- 2875037 | 16 Gallon | 1 per pack
- 2875039 | 55 Gallon | 1 per pack
- 2875040 | 330 Gallon | 1 per pack

**C. VES RACING SYNTHETIC 2-CYCLE OIL**

- » Designed to optimize the performance of VES systems
- » The best engine and exhaust valve detergency available
- » Additional anti-wear additive extends ring, cylinder and bearing life
- » Pre-mix or injection
- » The oil exclusively used by the factory racing team

- 2878243 | Quart | 6 per pack
- 2878191 | 1 Gallon | 4 per pack
- 2878244 | 16 Gallon | 1 per pack
- 2878245 | 55 Gallon | 1 per pack

**D. PS-4 PLUS SYNTHETIC OIL**

- » Full synthetic designed for Polaris 4-stroke engines
- » Excellent cold weather start-ability plus ultimate engine protection in severe operating conditions

- 2876244 | Quart | 12 per pack
- 2877490 | 2 Quart | 8 per pack
- 2876245 | 1 Gallon | 4 per pack
- 2876247 | 16 Gallon | 1 per pack
- 2876246 | 55 Gallon | 1 per pack

**E. 4-STROKE OIL CHANGE KIT**

- » Kit includes three 1-qt. bottles of premium PS-4 Plus synthetic engine oil, filter and jumper harness

- 2875522 | FS, FST | 4 Kits per Case

**F. 112 OCTANE RACING FUEL**

- » Consistent blend, excellent shelf life
- » Engineered and tested by the Polaris Factory Race Team to meet the demands of high-horsepower stock and modified racing engines
- » Legal-stock fuel for most race sanctions; dilute to meet specific octane requirements
- » Maximum horsepower potential

**2877162** | 16 Gallon | 112 Octane

**2877163** | 55 Gallon | 112 Octane

**G. FUEL SYSTEM TREATMENT**

- » Dissolves gum & varnish in fuel system
- » Dissolves carbon in combustion chamber
- » Excellent fuel stabilizer for storage
- » Formulated for 2&4-cycle Polaris engines
- » 1 ounce treats 1 gallon of fuel
- » 2X the protection of fuel stabilizers
- » Previously called "Carbon Clean Fuel Treatment"

**2871326** | 12 oz. | 12 per pack

**H. ISOPROPYL FUEL DE-ICER**

- » High-tech additive prevents fuel line freezing in extreme cold conditions
- » Formulated for 2-cycle and 4-cycle Polaris engines
- » ½ ounce treats 1 gallon of fuel

**2870505** | 1 Quart | 12 per pack

**I. PREMIUM FUEL STABILIZER**

- » Prevents fuel oxidation and system corrosion
- » Significantly reduces gum and varnish formation
- » Protects yellow metal and rubber fuel system components
- » Formulated for 2&4-cycle Polaris engines

**2870652** | 1 Quart | 12 per pack

**2872280** | 2.5 Gallon | 2 per pack

**J. PREMIUM ANTI-FREEZE**

- » Keeps cooling systems flowing at radical sub-zero temperatures
- » Formulated specifically for Polaris snowmobile and ATV aluminum cooling systems
- » 60/40 pre-mix with deionized water, effective to -62° F

**2871534** | 1 Quart | 12 per pack

**2871323** | 1 Gallon | 6 per pack

**2872278** | 55 Gallon | 1 per pack

**K. SYNTHETIC CHAINCASE LUBE**

- » Prevents rust, oxidation and corrosion of internal chaincase components
- » Synthetic formula engineered and tested by Polaris for snowmobile chains and sprockets
- » Provides maximum protection for extreme operating temperatures
- » Low sulfur additive resists thermal break-down

**2873105** | 1 Quart | 12 per pack

**2873106** | 1 Gallon | 4 per pack

**2872952** | 2.5 Gallon | 2 per pack

**L. HYDRAULIC BRAKE FLUID**

- » Designed for use in Polaris hydraulic brakes
- » Superior high temperature characteristics
- » Anti-corrosive additives extend the life of brake system and ensures consistent, positive braking

**2872189** | DOT 4 12 oz. | 12 per pack

**M. GREASE GUN KIT**

- » Tough steel construction and pistol grip design
- » Front and top-pipe outlet mounts accept both 6" rigid pipe nozzle and 12" 12,000 psi flex hose
- » Comes with standard zerK fitting

**2871312** | Grease Kit | 4 per pack

**N. ALL SEASON GREASE**

- » Engineered for the pressure and temperature demands of snowmobiles, ATV and watercraft

**2871322** | 3 oz. | 4 packs, 6 per pack

**2871423** | 14 oz. | 10 per pack

**O. GAS SHOCK OILS**

- » Premium formulas to match every shock
- » Eliminate fade and freeze up

**2874522** | Walker Evans® - 5 wt. - 1 Quart | 6 per pack

**2870995** | Premium FOX® - 1 Quart | 6 per pack

**2872279** | Premium FOX® - 2.5 Gallon | 2 per pack

**2873716** | Premium RydeFX® - 1 Quart | 6 per pack

**P. SHOCK ADJUSTING LUBE**

- » Allows for easy spring adjustment
- » Silicone dry film lubricant
- » Penetrates shock body threads and lubricates spanner nut and threads maintaining adjustability in extreme cold

**2878018** | Shock Adjusting Lubricant | 1 per pack

PURE POLARIS: TECHNOLOGY DRIVEN LUBRICANTS  
**KEEP YOUR SLED PURE:**  
 INSIST ON VES GOLD PLUS FULL SYNTHETIC 2-CYCLE OIL

**ENHANCED LUBRICITY**

This piston shows scuffing which can lead to catastrophic engine failure as a result of the use of an inferior synthetic 2-cycle oil.

**ENHANCED VALVE CLEANLINESS**

When exhaust valves have hard carbon deposits on them, they can stick and eventually seize, greatly reducing performance. VES Gold Plus minimizes carbon deposits.

**ENHANCED COLD PULL STARTING**

Formulated to provide better starting performance in all conditions – including extreme cold temperatures.

**65% EASIER TO COLD PULL START**  
 (measured in Lbs. of Pull Force)
