// APPAREL & ACCESSORIES //

MAKE IT YOURS.

Like Polaris® snowmobiles, Pure Polaris® apparel and accessories are designed to give you Terrain Dominating Control. Gear specifically designed to tackle the steep and deep, or comfortably click off two hundred miles of trail. Gear to boondock, ditch bang, rip the backcountry or tour to the next time zone with your club. It's all here. Everything you need to layer up when the temperature drops. Everything you want to customize, boost performance, add storage and protect your sled. Dominate any weather, any snow depth, any terrain...with Pure Polaris.

WHAT'S NEW FOR '12

PURE-SEAL™ FULL-FACE & MODULAR HELMETS
 See Pgs. 18 - 20

FULL-FACE HELMETS

Pure Polaris® offers a full-line of full-face helmets. From our Modular – now available in a new color and with factory installed electric shield, to our new and improved Cyclone ADV or AF-2.0 with PureSeal™ Technology and expanded size range. No matter what your preference or price range we've got you covered – including our new Retro Graphic AF-2.0, a perfect match to a Retro Jacket and your new SnowCheck Retro Switchback.

PURE-DRY™ GEAR
 See Pgs. 8 & 13

PURE-DRY™ GEAR

By quickly evaporating the body's moisture, the rider stays dry and comfortable. PURE-DRY™ gear uses Cocona® Xcelerator technology which provides 800% more surface area to quickly spread moisture and speed up evaporation.

ADVENTURE CARGO SYSTEM See Pg. 40

STORAGE

What if you could add two saddlebags in 15 seconds and without tools? Well, now you can with the introduction of the Adventure Cargo System for the new Pro-Ride™ Switchback® chassis. This versatile system allows you to add an aluminum cargo rack and then utilizing Lock & Ride® technology easily and quickly add as much storage as you need with molded saddlebags and a water-resistant rear rack bag.

MEN'S JACKETS

INSULATED

A PURE PARTNERSHIP

- Two brands committed to high quality, performance riding gear.
- Joined forces to offer premium jackets and bibs.
- FXR was founded by Canadian Milt Reimer, a former Polaris dealer and pro motocross and snowmobile racer.
- Recognized the need for aggressive snowmobile apparel that met the needs of both racers and enthusiasts.
- Polaris® FXR apparel provides snowmobile riders with warm, comfortable, protective, and stylish riding gear.

A. POLARIS® FXR TITAN COLDSTOP JACKET INSULATED

This versatile jacket lets a rider customize the fit for optimal comfort, adjust the ventilation as desired, and dial in the proper warmth with the FXR® removable liner system. The removable Cold Stop liner has its own front zipper and own collar for comfort and warmth, and can be removed easily when the weather heats up, or inserted when temperatures cool.

SHELL: 200/420-denier nylon.

WATERPROOF BREATHABLE: Two separate layers of 10,000mm/8000g, each work together in FXR's MMT two-stage dry technology.

INSULATION: 225g insulated liner - which is removable; "Cold Stop" moisture wicking, Thermal Flex zip-in liner insert system; the liner has a separate front zipper and collar.

VENTING: Waterproof zippered chest vents with "Dry Vent" mesh inserts.

POCKETS: Two hand pockets, one key pocket and inner pockets: cell phone and zippered pocket.

ADDITIONAL FEATURES: YKK®+ front zipper with "Cold Stop" zipper system, magnetic front closure, adjustable collar with soft collar roll and fleece lining, adjustable cuffs, adjustable wind skirt, adjustable Velcro®+ hem tabs, D-ring, pre-curved shoulders and elbows.

SAFETY: 3M®+ reflective piping.

B. POLARIS® FXR THROTTLE JACKET

INSULATED

The Throttle Jacket features great styling, FXR® and Polaris® branding, warm insulation, comfortable fit and multiple convenient pockets. The warm insulation ensures a rider's comfort during a day on the trails, and the adjustable cuffs, wind skirt and hem let a rider customize the fit and seal out the elements.

SHELL: 420/600-denier nylon/poly shell.

WATERPROOF BREATHABLE: (10,000mm/8000g).

INSULATION: 200g Thermal Flex removable insulated liner.

VENTING: Waterproof zippered chest vents with "Dry Vent" mesh inserts.

POCKETS: Two hand pockets, one key pocket and inner pockets: cell phone and zippered pocket.

ADDITIONAL FEATURES: YKK® front zipper, magnetic front closure, adjustable wind skirt, adjustable shock cord hem, adjustable collar with soft collar roll and fleece lining, adjustable cuffs, D-ring, pre-curved shoulders and elbows.

SAFETY: 3M® reflective piping.

MEN'S JACKETS UN-INSULATED

THE NEW PURE-DRY™
POLARIS® GEAR

- By quickly evaporating the bodies moisture, the rider stays dry and comfortable.
- Cocona® Xcelerator technology provides 800% more surface area to quickly spread moisture and speed up evaporation.
- PURE-DRY™ System = Base Layer + Jacket & Bibs. Worn together delivers waterproof breathability at an extreme value.

PURE-DRY™ POLARIS GEAR

» KEEP DRY. KEEP RIDING.

A. PURE-DRY VAPOR JACKET UN-INSULATED

For snowmobilers who layer their riding gear to keep dry and keep riding, Pure Polaris® introduces the new PURE-DRY™ Polaris Gear. PURE-DRY Polaris Gear uses Cocona® Xcelerator™ fabric technology for premium waterproof performance and to promote the rapid evaporation of moisture generated by body heat. The PURE-DRY Vapor Jacket keeps snow's moisture out (waterproof) and "xcelerates" the transfer of moisture away from the skin (breathable) to keep a rider warmer, drier and more comfortable.

PRODUCT COMPARISON

Complete your perfect riding set-up with PURE-DRY Gloves (Pg. 25), Bibs (Pg. 13) and Base Layers (Pg. 10).

SHELL: 100% nylon shell.

WATERPROOF BREATHABLE: Cocona® Xcelerator fabric technology promotes rapid moisture transfer and evaporation, and delivers the latest innovations in waterproof, breathable performance.

INSULATION: Un-insulated; mesh-lined for comfort, unrestricted movement and easy on/off. Layer as conditions demand.

VENTING: Underarm and back vents let warm, moist air escape and let fresh air in; vents have mesh gussets to prevent snow from getting inside jacket; 2-way zip underarm vent and vertical back vent (won't interfere with a backpack).

POCKETS: Two interior, three exterior and audio cord access.

ADDITIONAL FEATURES: Soft fold-over chin flap, microfleece rolled comfort edge at collar, pre-curve sleeve, snap closure cuff (instead of Velcro® which can lead to ice build-up), 2-way YKK® waterproof front zipper with full-length storm flap inside, neck collar draw cord lock to keep snow out.

TOBE
TECHNOLOGY

C. TOBE RISE JACKET UN-INSULATED

The ToBe® Rise Jacket provides waterproof/breathable protection for backcountry, deep snow and mild weather riding. This ventilated, un-insulated jacket has several convenient pockets, a removable hood and fresh, trendy styling.

SHELL: 500-denier/200-denier canvas nylon.

WATERPROOF BREATHABLE: TOBETECH membrane (10,000mm/5,000g).

INSULATION: Un-insulated.

VENTING: Underarm vents.

POCKETS: Six front external pockets, two internal pockets.

ADDITIONAL FEATURES: Waist snaps and shock cord-adjustable hem. Snow skirt has snaps that attach to pants (sold separately) to create a seal akin to a one-piece suit.

2861223 | Black/White | Men's M-2XL

B. OCTANE JACKET UN-INSULATED

This Octane Jacket delivers cutting edge styling with its plaid pattern shell and its waterproof/breathable performance enhances the comfort for active riders. It is un-insulated so a rider can layer to suit the day's weather and vents keep a rider comfortable during aggressive riding.

SHELL: 100% nylon with plaid pattern.

WATERPROOF BREATHABLE: Reissa® (8,000mm/8,000g).

INSULATION: Un-insulated, mesh-lined.

VENTING: Full zip vents at underarm and back (vertical vents, won't interfere with backpack).

POCKETS: Four exterior pockets, one with chamois cloth inside to wipe goggles/shield, two interior pockets.

ADDITIONAL FEATURES: Waterproof two-way front zipper, zipper garages on exterior pocket create tight seal. Microfleece rollover collar, snow skirt, neck drawcord and adjustable back drawcord keep snow out. Wrist snaps reduce ice buildup.

THE ANATOMY OF EFFECTIVE LAYERING.

There is no perfect layering system. Everyone has different needs. But there are basic rules for layering.

- Base layer needs to wick sweat away from your skin. Polyester is good, cotton is bad.
- Insulating layer must work with the base layer to transfer moisture. Polyester and fleece are best.
- Outer layer must block wind and allow moisture to escape. Add or remove layers as needed to stay warm and comfortable.

STEP 1 BASE LAYER

- PURE-DRY Base Layer Shirt - #2862039 (Pg. 10)
- PURE-DRY Base Layer Pant - #2862040 (Pg. 10)

STEP 2 INSULATING LAYER

MEDIUM WEIGHT LAYER OPTIONS

- Backcountry Riding Shirt - #2861147, 2861148 (Pg. 10)
- Quarter-Zip Shirt - #2862038 (Pg. 10)

HEAVY WEIGHT LAYER OPTIONS

- Barrier Fleece Jacket - #2861149 (Pg. 10)
- Barrier Fleece Vest - #2869082 (Pg. 10)
- Windbloc Jacket - #2861150 (Pg. 10)
- Ascent Softshell Jacket - #2861127 (Pg. 10)

STEP 3 PROTECTION LAYER

- PURE-DRY Vapor Jacket - #2862024 (Pg. 8)
- Octane Jacket - #2860113 (Pg. 9)
- ToBe Rise Jacket - #2861223 (Pg. 9)

The three layering combinations above contain different layers giving you different results. Try adding and removing layers to meet your level of warmth and comfort. Ideal layering system under un-insulated jackets & bibs for a temp range of 10°F to 25°F.

SEE PAGE 10 FOR OUR LAYERING OPTIONS

MEN'S LAYERING

STEP 1-BASE LAYER
LIGHT WEIGHT LAYER

A. PURE-DRY BASE LAYER

The Base Layer System wicks away moisture to keep a rider dry and comfortable. It is just as important as the jacket or bib you are wearing. The activated carbon in Cocona® fabric technology is rich with micro-pores, resulting in increased fabric surface area which transfers moisture and odor away. Reactivated during washing/drying.

- » 100% Polyester knit.
- » Cocona® technology for rapid moisture transfer.
- » Pill-proof durability.
- » Features mock neck design.

2862039 | Men's Shirt, Black | S-2XL

2862040 | Men's Pant, Black | S-2XL

STEP 2-INSULATING LAYER
MEDIUM WEIGHT LAYER

B. BACKCOUNTRY RIDING SHIRT

This versatile shirt will be your go-to item of winter apparel. It's ideal as part of a layering system and is also comfortable around the house or around town.

- » 100% Polyester.
- » Partial zipper front for comfort control, front zip chest storage.

2861147 | Black/Gray | S-2XL

2861148 | Red/Gray | S-2XL

C. QUARTER-ZIP RIDING SHIRT

Designed for comfort and warmth, without adding bulk. Ideal for colder days.

- » 100% Polyester.
- » Shirt features a zip mock neck.

2862038 | Black | S-2XL

STEP 2-INSULATING LAYER
HEAVY WEIGHT LAYER

D. WINDBLOC JACKET

This Windbloc Jacket provides warmth without being heavy or bulky, and the interior lining is ultra-comfortable. It's an ideal component of a layering system, especially with waterproof/breathable jackets such as the PURE-DRY Vapor Jacket.

SHELL: 3-layer laminate with 100% knit polyester shell, windproof film and inner polyester fleece.

WINDPROOF BREATHABLE: Windproof and breathable.

POCKETS: Two hand pockets and one external chest pocket.

2861150 | Black | Men's S-2XL

E. ASCENT SOFTSHELL JACKET

This versatile, comfortable jacket provides warmth without being heavy or bulky and works well with un-insulated waterproof/breathable jackets.

SHELL: Polyester.

WINDPROOF: (3000mm/3000g).

VENTING: Underarm vents.

POCKETS: Two handwarmer pockets, one external chest pocket.

ADDITIONAL FEATURES: Waterproof front zipper, adjustable draw cord collar, adjustable draw cord waist, micro fleece rolover collar.

2861127 | Black/Gray | Men's S-3XL

F. BARRIER FLEECE JACKET

100% Polyester fleece inner layer retains body heat to keep a rider comfortable. The brushed exterior layer provides a finished look.

- » 100% Polyester, anti-pill microfleece.
- » Jackets with drop tail hem & elastic drawcord.
- » Left chest pocket.

2861149 | Jacket, Black | S-2XL

G. BARRIER FLEECE VEST

The brushed exterior layer provides a finished look that makes this jacket great for wearing around town.

- » 100% Polyester, anti-pill microfleece.
- » Jackets with drop tail hem & elastic drawcord.

2869082 | Vest, Black | S-2XL

MEN'S JACKETS

RACE

H. RACE CREW JACKET

INSULATED

This Race Crew Jacket is as authentic as they come. It's just like the jackets worn by racing team crew members in the pits and at trackside. It features warm insulation, a waterproof/breathable coating on the shell, and multiple pockets. It features large Polaris and Polaris Racing logos and a full set of sponsor logos from the Polaris Racing program.

SHELL: 660-denier Taslan®†

WATERPROOF BREATHABLE: (3000mm/3000g).

INSULATION: 200g in body, 150g in sleeves.

VENTING: Underarm vents.

POCKETS: Two hand pockets, sleeve key pocket, right chest storage pocket, four interior pockets for cell phone, MP3, walkie talkie and ID card.

ADDITIONAL FEATURES: YKK®† front zipper, plaid printed panels, stretch softshell cuffs, snow skirt, pre-curved sleeves, adjustable wrist and waist tabs, D-ring.

SAFETY: 3M®† reflective piping and ellipse patches on sleeves.

2861329 | Black/Red | Men's S-3XL

NEW FOR '12

I. SIDELINE JACKET

INSULATED

This lightly insulated, weather-resistant jacket offers the ideal combination of warmth and protection to ward off winter's chill. The lightweight nylon Taslan shell has a weather-resistant polyurethane coating, and the Polyfil® insulation enhances comfort.

SHELL: Nylon Taslan®†

WATERPROOF BREATHABLE: 600mm waterproof PU coating.

INSULATION: 180g Polyfil®† insulation.

POCKETS: Two handwarmer pockets, five interior pockets.

ADDITIONAL FEATURES: Headphone cord loop at collar, zip-off removable insulated hood with drawcord, YKK®† zippers, hook and loop adjustable cuffs.

2861103 | Black | Men's OSFM

NEW FOR '12

J. RACE SHELL JACKET

UN-INSULATED

You can look just like a Polaris® Factory Racer with this authentic Race Shell. It's cut to fit over body armor and layers of undergarments, and has a full complement of logos representing supporters of the winning Polaris Racing program.

SHELL: 660-denier Taslan®†/420-denier Ripstop nylon.

WATERPROOF BREATHABLE: (3000mm/3000g).

INSULATION: Un-insulated.

VENTING: Back vents.

POCKETS: Handwarmer pockets that go all the way through.

ADDITIONAL FEATURES: YKK®† zippers, stretch softshell cuffs with adjustable hook and loop closure, bungee cord at bottom/waist hem with adjustable barrel lock, D-ring, Nylex collar lining and chin guard, interior zipper to provide access to back panel for personalized embroidering.

SAFETY: Meets ISOC requirements.

2861330 | Orange/Black | Men's S-2XL

K. TRAVEL JACKET

INSULATED

Here is the ideal jacket for driving to and from your favorite riding spots and for wearing around town. It's warm but not heavy and features Polaris Racing graphics.

SHELL: 330-denier Reissa®† Cat's Eye nylon.

WATERPROOF: Polyurethane coated.

INSULATION: Polyfil®† insulation, 230g in body, 170g in sleeves.

POCKETS: Two handwarmer pockets.

ADDITIONAL FEATURES: Adjustable wrist tabs.

2861128 | Black/Gray | Men's S-3XL

D. PURE-DRY VAPOR BIB UN-INSULATED

These Bibs deliver the best in waterproof/breathable performance as well as outstanding value. The rider's skin stays drier, warmer and more comfortable. These bibs, which are the ideal complement to the PURE-DRY Vapor Jacket (sold separately, PN 2862024), have nylon harness straps that prevent chest chafing. All seams are taped for waterproof performance.

SHELL: 100% nylon shell.

WATERPROOF BREATHABLE: Cocona[®] Xcelerator fabric technology promotes rapid moisture transfer and evaporation, and delivers outstanding waterproof.

INSULATION: Un-insulated.

POCKETS: Two exterior pockets.

ADDITIONAL FEATURES: Boot tab loops around boot laces to hold bib legs down, internal gaiters with snaps provide snug fit around boots, comfortable nylon harness straps can be crossed in front to prevent irritated chest, stretch back and side panels add to comfort and mobility, waterproof two-way YKK[®] front zipper, full-length side zipper opens to upper thigh, zipper garages, removable knee armor, pre-curved knees, reinforced seat, Velcro[®] adjustment waist belt.

2862031 | Black | Men's Bib, S-3XL, MT-2XL

TOBE TECHNOLOGY

E. TOBE RISE PANT UN-INSULATED

The ToBe[®] Rise Pant coordinates with the ToBe[®] Rise Jacket (sold separately, PN 2861223) and provides waterproof/breathable protection for back country, deep snow and mild weather riding. This un-insulated pant has cargo pockets and connects to the ToBe[®] Rise jacket to form a seal on par with a one-piece suit.

SHELL: 500-denier/200-denier canvas nylon.

WATERPROOF BREATHABLE: TOBETECH[®] Membrane (10,000mm/5000g).

INSULATION: Un-insulated.

POCKETS: Two handwarmer and two cargo pockets.

ADDITIONAL FEATURES: Waist tabs for a comfortable fit. Tabs for a sealed connection to the ToBe[®] Rise Jacket. Vents on the sides of the legs. Interior gaiters to seal snow out of boots.

2861224 | Black | Men's M-2XL

F. MEN'S RACE PANT UN-INSULATED

Wear the gear the pro racers wear. The race-proven Race Pant is lightweight yet durable, they are cut to fit over leg protection, and they feature high-performance Polaris styling and branding. They coordinate with the Race Shell (sold separately, PN 2861330) to create the high-performance look seen on the Polaris Factory Racing teams.

SHELL: 660-denier Taslan[®] and a 500-denier inner leg.

WATERPROOF BREATHABLE: (3000mm/3000g).

INSULATION: Un-insulated, mesh lining.

POCKETS: Two zippered front pockets.

ADDITIONAL FEATURES: Back gripper elastic. Accordion upper knee for comfort and flexibility. Lightweight knee padding. YKK[®] leg zippers. One-piece crotch gusset. Removable suspenders. Internal seat padding for comfort and cushion. Adjustable front waist buckle.

SAFETY: 3M[®] reflective ellipse patches at lower back legs.

A PURE PARTNERSHIP

- Two brands committed to high quality, performance riding gear.
- Joined forces to offer premium jackets and bibs.
- FXR was founded by Canadian Milt Reimer, a former Polaris dealer and pro motocross and snowmobile racer.
- Recognized the need for aggressive snowmobile apparel that met the needs of both racers and enthusiasts.
- Polaris® FXR apparel provides snowmobile riders with warm, comfortable, protective, and stylish riding gear.

A. POLARIS® FXR® THROTTLE JACKET

INSULATED

This jacket features the Thermal Flex removable liner system, which can be removed easily when the weather heats up. Zippered vents let a rider control heat retention and airflow, and the waterproof/breathable shell keeps a rider dry and comfortable. This jacket features adjustability at the waist and cuffs for a great fit.

SHELL: 420/600-denier nylon/poly.

WATERPROOF BREATHABLE: (10,000mm/8000g).

INSULATION: 225g Thermal Flex removable insulated liner.

VENTING: Underarm vents.

POCKETS: Two front zippered hand pockets, left sleeve key pocket, inside cell phone and zippered pocket on inner lining and removable liner.

ADDITIONAL FEATURES: YKK®† front zipper, magnetic front closure, adjustable wind skirt, adjustable shock cord hem, Velcro®† tab-adjustable collar and cuffs, D Ring, aggressively pre-curved shoulders and elbows.

SAFETY: 3M®† reflective piping.

WOMEN'S JACKETS

A. DIVA JACKET

INSULATED

An outstanding value, this Diva Jacket offers a great combination of warm insulation, a flattering and comfortable cut, and smart styling that makes it ideal to wear around town as well as on the trails. The durable shell with its waterproof/breathable coating and underarm vents complements the warm insulation to keep a rider comfortable in all conditions. The stretch softshell cuffs ensure a great fit, and the contrasting stitching on the torso enhances the stylish cut. The left sleeve has the tabs and tunnel for the accessory iPod® Controller (sold separately, PN 2860139), which lets a rider control an MP3 player remotely with gloves on.

SHELL: 420-denier Oxford nylon/660-denier black Taslan®† with white panels of Polytex.

WATERPROOF BREATHABLE: (3000mm/3000g).

INSULATION: 200g in body, 150g in sleeves.

VENTING: Underarm vents.

POCKETS: Two hand pockets, key pocket on left sleeve; internal pockets include: upper phone/MP3 pockets, patch storage pocket, Lycra goggles pocket and chamois cloth in interior pocket to wipe a shield or goggles without scratching.

ADDITIONAL FEATURES: Stretch softshell cuffs, Ideal front zipper with silicone Polaris logo slider insert, loop and tunnel in left sleeve for attaching optional iPod®† Controller (sold separately, PN 2860139) with Polaris® logo patch covering control port in the sleeve.

SAFETY: 3M®† reflective ellipse on back and lower left sleeve.

HELMETS FULL-FACE

A. CYCLONE ADV HELMET

Premium materials make the Cyclone ADV Helmet the most protective helmet Pure Polaris offers. Fiberglass with a lightweight EPS application is used to create a strong, durable, lightweight shell that provides the greatest protection a rider can get. The moisture-wicking QuickDry liner keeps a rider comfortable, and it's removable and washable. The dual-pane shield has anti-fog and anti-scratch coatings and the helmet's ventilation and custom-fit breath deflector ensure that the shield will remain fog-free.

SHELL: Strong, lightweight fiberglass with lightweight, impact-absorbing EPS liner for outstanding impact protection.

SHIELD: Dual-pane shield. Anti-fog & anti-scratch coatings. Quick-release ratchet system. Optional electric shield (2868215).

VENTS: Dual venturi exhaust vents, elongated crown vents, chin and rear exhaust vents.

BREATH DEFLECTOR: PureSeal™ Technology features closed-cell foam around the breath deflector and ports to help create a tight seal, redirecting breath outside the helmet to prevent fogging.

INTERIOR: Moisture-wicking QuickDry liner keeps the rider warm and comfortable by moving sweat away from the head; liner is removable and washable.

VALANCE: Removable chin valance blocks cold wind.

SAFETY: SNELL® 2010 and DOT certified through size 2XL; DOT-approved through 4XL.

B. AF-2.0 HELMET

A great value among full-face helmets, the AF-2.0 delivers outstanding protection and comfort. The durable, protective polycarbonate shell offers outstanding protection, and its moisture-wicking QwickDry liner is removable and washable to keep the helmet interior fresh. PureSeal™ Technology is the proven, highly effective anti-fog system that prevents a rider's breath from fogging the dual-pane shield. The AF-2.0 has a new shell design that enhances its styling and ensures true sizing.

SHELL: Polycarbonate and ABS alloy; dual-density, impact-absorbing EPS liner.

SHIELD: Durable dual-pane shield has anti-fog, anti-scratch coatings and Quick-Release ratchet system; optional electric shield available (PN 2868215).

VENTS: Chin vent, rear spoiler vent, top vent.

BREATH DEFLECTOR: PureSeal™ Technology features closed-cell foam around the breath deflector and ports to help create a tight seal, redirecting breath outside the helmet to prevent fogging.

INTERIOR: Moisture-wicking QwickDry liner keeps the rider warm and comfortable by moving sweat away from the head; liner is removable and washable.

VALANCE: Removable chin valance blocks cold wind.

The colder it gets, the quicker your helmet fogs up. You can either open your face shield and risk frostbite, stop every mile or so to wipe off the fog...or buy a Pure Polaris helmet with PureSeal™ technology. Both the AF-2.0 and Cyclone ADV helmets feature strategic venting, a closed-cell foam for a positive seal and telescoping breath exhaust ports. Breath is deflected down and out. That keeps your face shield clear for maximum visibility and rider comfort.

PURESEAL™ BREATH DEFLECTOR

HELMETS FULL-FACE MODULAR

2861249 | Silver Matte

B. DEMON 1.1 HELMET

The lightweight and comfortable Demon 1.1 Helmet is designed for performance-minded riders who demand a helmet that lets them ride long and ride hard. It provides outstanding protection and has a multi-channel flow-through ventilation system engineered to optimize rider comfort. With its premium shell construction, it's extremely light, so a rider can ride aggressively and longer without neck fatigue. The QuickDry liner wicks moisture to help a rider stay comfortable throughout long days on the snow.

SHELL: Lightweight, protective composite fiberglass with a dual-density EPS liner. The EPS liner absorbs impact, and its two layers are engineered to position increased density in specific impact-prone areas to provide the most effective protection.

VENTS: Aerodynamic, multi-channel flow-through ventilation system introduces fresh cooling air that flows over and around the rider's head, then exhausts out rear vents for enhanced rider comfort.

INTERIOR: Moisture-wicking QuickDry liner is removable and washable, and has superior moisture absorption.

ADDITIONAL FEATURES: Adjustable visor; removable molded roost deflector protects the nose/face from debris; goggle guide on back of helmet holds goggles in place and is compatible with most goggle brands; adjustable chin strap.

SAFETY: SNELL M2010/DOT-approved.

C. POLARIS® OAKLEY® PROVEN GOGGLE

Polaris® has teamed up with Oakley®, the most recognized name in performance eyewear, to create the Polaris® Oakley® Proven Goggle. It provides a rider with superb visibility, great comfort and anti-fog qualities that keep the view clear throughout the ride.

- » Lexan® lens material provides 100% protection against UVA, UVB, UVC and harmful blue light.
- » F2 anti-fog lens coating.
- » Flexible O Matter® chassis.
- » Triple-layer foam with polar fleece lining.
- » Optimized to fit most face sizes.
- » Metal icon accent.
- » Ventilation to provide airflow for exhaust of warm, moist air.
- » Polaris® branding on the adjustable wide strap that accommodates the widest helmet designs.

» CHOOSING THE RIGHT GLOVE

Pure Polaris® Gloves are:

- Designed to perform at the highest level for snowmobiling.
- Built with less insulation in the palms than a traditional winter glove, they allow you to hold handlebars more comfortably and also take full advantage of heated grips.
- Available in heavier or lighter gloves to suit your personal preference. See the chart above to help choose the perfect glove.

A. WOMEN'S ASCENT SOFTSHELL JACKET

One of the most effective layering components Pure Polaris® offers is this Women's Ascent Softshell Jacket. This tri-layer jacket has a fleece exterior, and a soft fleece interior layer sandwiching a waterproof/breathable laminate layer. Its outstanding performance is complemented by its stylish design that integrates pink accents and contrasting-color zippers as well as Polaris® branding.

SHELL: Three-layered: hard-face outer, windproof middle and soft fleece interior.

WINDPROOF: (3000mm/3000g).

POCKETS: Two hand pockets.

ADDITIONAL FEATURES: YKK® zippers with silicone Polaris® logo zipper pull on front zipper, adjustable bungee at bottom hem.

2862041 | Gray | S-2XL

B. WOMEN'S FLEECE JACKET

One of the most versatile pieces in any snowmobiler's cold-weather wardrobe is a comfortable fleece jacket. This Women's Fleece Jacket has the style, comfort and warmth to become a favorite in every woman's wardrobe. It is made of dual layers of ultra-soft, moisture-wicking fleece that looks great and keeps a rider warm and comfortable.

SHELL: 2-sided ultra-soft, anti-pill moisture-wicking fleece.

POCKETS: Two zippered exterior hand pockets.

ADDITIONAL FEATURES: Ideal zippers with silicone Polaris® logo zipper pull on the front zipper.

2862042 | Purple | S-2XL

C. WOMEN'S BARRIER FLEECE JACKET

Dial up the warmth and comfort with the Women's Barrier Fleece Jacket. Its 100% polyester fleece inner layer retains body heat to keep a rider comfortable. The brushed exterior layer provides a finished look so this jacket can be worn around town.

SHELL: 100% Polyester, anti-pill fleece.

POCKETS: Multiple storage pockets.

ADDITIONAL FEATURES: Drop tail hem & elastic drawcord.

2861152 | Black | S-2XL

D. WOMEN'S BACKCOUNTRY RIDING SHIRT

This versatile Backcountry Shirt will become an essential part of any winter wardrobe. It's ideal as part of a layering system and is also comfortable and stylish around the house and around town.

SHELL: 100% Polyester.

ADDITIONAL FEATURES: Partial zipper front for comfort control, Stylish embroidered graphics, including Polaris® ellipse on left chest.

WHAT'S NEW FOR '12

WIND PROTECTION

New for '12 is Pure Polaris® Wide Clyde windshield and Side Wind Deflectors that offer great coverage from the elements without compromising top speed.

STORAGE

The versatile Adventure Cargo System allows you to add an aluminum cargo rack and then utilizing Lock & Ride® technology add as much storage as you need with molded saddlebags and a water-resistant expandable rear rack bag – all within 15 seconds and without tools.

STYLE

The reason Pure Polaris® accessories exist is to help you make it yours. Choose from decal kits, windshields or colored body components to help personalize your sled.

CANVAS COVERS

These durable Canvas Covers provide outstanding protection for your favorite sled when it's being towed, parked overnight or stored in the off-season. These heavyweight Canvas Covers have an opening that provides access to the fuel cap, and they fit securely to the sled for reliable protection during trailering. They also feature Polaris® branding.

FITMENT: Custom fit for Polaris® snowmobiles, excellent coverage of spindles and a-arms, adjustable strap to accommodate windshield heights.

MATERIAL: Rugged, durable 10 oz. canvas, treated to repel water and UV degradation.
ADDITIONAL FEATURES: Elastic at bottom holds cover on sled, cover conforms to sled for protection; opening at fuel cap for fueling during trailering; spindles are covered and protected from the elements and trailering debris; reinforced handlebar area and wear points; adjustable coverage to suit windshield height; Polaris® brandings.

DUST COVERS

These dependable nylon Dust Covers are ideal for protecting sleds while they are in an enclosed trailer, being stored indoors during the off-season, and also while parked overnight. Durable elastic around the base of the cover ensures a snug fit and thorough coverage. Take a cover along during a multi-day riding trip and just fold it and store it in a bag while riding. These covers are available in two sizes, one for 2-up and RMK® models, and one for standard solo-rider models. These covers feature Polaris® branding.

FITMENT: Custom fit for Polaris® snowmobiles, adjustable strap to accommodate windshield heights.

MATERIAL: Durable nylon.

ADDITIONAL FEATURES: Elastic at bottom holds cover on sled, Polaris® branding, not constructed for use on sled being transported on an open trailer.

A

POLARIS® TECHNOLOGY

WIND PROTECTION: IT'S YOUR SLED, IT'S YOUR CHOICE

WINDSHIELDS BY THE NUMBERS

Model	Height	Width
Low	7"	14"
Chrome RMK	14"	22"
Wide-Clyde	16"	28"
Mid	18.5"	22"
Extra Tall	24"	28"

YOUR SLED. YOUR STYLE. From a low profile with hand guards to a mid-height or tall; choose the windshield that fits your wind protection need.

B. LOW WINDSHIELD

HEIGHT: 7" tall, creates a lower profile.
MATERIAL: 20% thicker than stock windshield.
INSTALLATION: Installs with six fasteners.
ADDITIONAL FEATURES: Gives your sled a custom look.

2877804 | Low Chrome, All PRO-RIDE™

2878779 | Low Black, All PRO-RIDE™

C. CHROME RMK® WINDSHIELD

HEIGHT: 14" tall without top lip to avoid snow being directed in the rider's face.
MATERIAL: 20% thicker than stock windshield.
INSTALLATION: Installs with six fasteners.
ADDITIONAL FEATURES: Chrome finish.

2877840 | All PRO-RIDE™

D. MID WINDSHIELD

HEIGHT: 18.5" tall with top lip for added wind protection.
MATERIAL: 20% thicker than stock windshield.
INSTALLATION: Installs with eight fasteners (included).
ADDITIONAL FEATURES: Smoke finish w/silkscreen.

2877841 | All PRO-RIDE™

E. EXTRA TALL WINDSHIELD

HEIGHT: 24" tall for ultimate wind protection.
MATERIAL: 20% thicker than stock windshield.
INSTALLATION: Installs with six fasteners.
ADDITIONAL FEATURES: Light smoke finish w/silkscreen, hand flares and 4" tall side deflectors.

2878153 | All PRO-RIDE™

FOR EXTRA WARMTH USE THESE WIND DEFLECTORS DESIGNED TO GIVE INCREASED WIND PROTECTION AT TRAIL SPEEDS

F. PRO-RIDE™ WIND DEFLECTORS

MATERIAL: Rubber.
INSTALLATION: Adhesive backing for easy install.
ADDITIONAL FEATURES: Flared edge is extremely effective at deflecting wind, snow and ice away from the rider so the rider remains warmer and more comfortable.

F. HANDLEBAR GAUNTLETS

- » Keep driver's hands warm at any speed.
- » Hook and loop fasteners.
- » Water and stain-resistant polyfoam insulation.

2874144 | Universal Fit, Handlebar Gauntlets, Pair

G. TOURING GAUNTLET

- » Attaches to passenger handgrip of tour sleds.
- » Closes to keep snow out.

2876047 | IQ® & EDGE® Touring, WideTrak IQ, Pair

H. PASSENGER HANDWARMER KIT

- » Electric warming kit used with warming gauntlet.

2875933 | EDGE® Touring, 550 Fan '07-10

2878201 | '11-12 550 IQ LXT, 2-up seat kit

I. THUMBWARMER KIT (not shown)

2876332 | IQ Shift® '08

J. 12 VOLT & RCA PLUGS

- » 12v accessory plug in 12-volt outlet, great for GPS or phone, dash mount.
- » RCA adapter allows you to plug in a heated face shield.
- » RCA Power Plug includes all hardware required to add an RCA outlet.

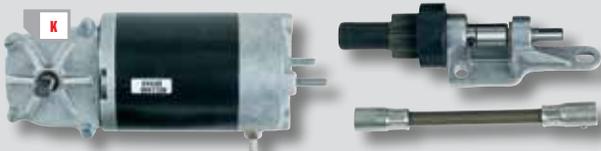

2878475 | All PRO-RIDE™ IQ®, 12V

2878227 | All PRO-RIDE™ IQ®, RCA Adapter

2878780 | All PRO-RIDE™ IQ®, RCA Power Plug

* All IQ except 600 carb

TOWABLES & UTILITY

K. KEY-OPERATED ELECTRIC START KITS

- » This is the ultimate convenience feature you can add to your sled.
- » Easier to use and more consistent than pull starts.
- » Nice for extreme cold conditions.
- » Electric Start Kits do not include batteries.

2878250 | '10-12 RUSH® PRO-RIDE RMK® Assault® '12 Switchback®

2877257 | '08-12 IQ® 600/700/800 Cleanfire

2877186 | '09-12 IQ 550 Fan

2875122 | '05-10 EDGE® 550 Fan

2877258 | 600 Carb

2873876 | '02-05 EDGE® 500/600 Domestic twin - Non Pro-X

L. ELECTRIC START KIT BATTERIES (not shown)

- » Good cranking amps for starting and plenty of capacity for accessories.
- » Easy to see electrolyte check.
- » Competitively priced.

4010774 | All IQ® Touring Models '06-current

4010466 | All FS / FST Models '06-07

4010630 | All Frontier® Models '03-05

M. BLOCK & BATTERY HEATERS

- » Warms your battery and engine for easier cold weather starting.

2411109 | 110V Block Heater - FS / FST

2875950 | 110V Battery Heater

N. PROJECTOR BEAM (not shown)

- » 55 watts, 200% brighter than stock lighting.
- » Emits 100 yard beam of light, works on high beam only.

2874969 | Projector Beam, '07-12 Cleanfire, FS / FST '06-12

2875638 | Projector Beam, IQ 600 Carb, '06-09

O. GAUGES AND OUTLET KITS (not shown)

- » Designed for Polaris sled dashes.
- » Calibrated for optimum accuracy.
- » Simple plug in installation.

2875948 | IQ® Altitude Gauge - All except 600 Carb

2875949 | IQ® Temperature Gauge - All except 600 Carb

2878475 | 12 Volt Outlet, RUSH® IQ Chassis - All except 600 Carb

2872215 | 12 Volt Outlet with Battery EDGE® '04-09

2878227 | '10-12 RUSH® IQ® RCA Adapter

2874394 | Tach Kit 6-pulse, Black & White Face, ('04-05 Supersport, Trail RMK, 550 Classic, Trail Touring)

NEW FOR 12
PRO-RIDE HITCH

P. RECEIVER HITCH

- » Receiver style hitch.
- » Accepts following tow hitches: J-Hitch, Standard Hitch, Donut Hitch.

2878683 | PRO-RIDE™ Hitch, '10-12 RUSH & '12 Switchback®

2876562 | '05-11 IQ 121"-136" Hitch, '11-12 LXT

2878344 | '07-11 IQ® RMK Hitch, '11-12 PRO-RIDE™ RMK®

2876059 | '07-12 IQ® Touring Hitch

2876058 | EDGE® Touring Hitch

2876037 | '07 Switchback® Hitch*

2875118 | '11-12 Switchback® Assault®, '05-06 IQ RMK 144"-151**

2874177 | EDGE® 121", Switchback®, RMK® Swivel Hitch

2871370 | Gen 2 (except RMK, Indy 500 and Triumph)

* Limited Quantity

Q. RECEIVER HITCH DRAW BARS

- » Safety lock pin.
- » Heavy-duty steel rod hook.
- » Durable e-coat and black powdercoat finish.
- » Mounting lock pin for added safety.
- » J hitch features a safe spring-loaded lock plate.
- » Donut hitch receives up to 1" ropes, wires or tow hooks.

2876711 | "J" Hitch

2874448 | "J" Hitch, IQ Touring models

2876677 | Standard Hitch

2874449 | Donut Hitch

R. TIE DOWN STRAPS

- » Reliable high-test tie down, secure sleds quickly & confidently.

2871182 | (2) Pack | Red

2871181 | (2) Pack | Black

S. SLED DOLLIES

- » Move that sled around the garage with ease.

2856656 | Red

PERFORMANCE SKIS

A. POLARIS® IQ2 SKI Improved performance, control and cornering

- » Aggressive profile for improved trail control.
- » Upgrades easily from a steel ski.
- » Precision construction, performance tested.
- » Less handlebar vibration, smoother feeling ride.
- » Includes ski toe & hardware.
- » Carbide skags required – sold separately – see chart to the right.

2877680-133 | White, Each

2907680-293 | Indy Red, Each

B. POLARIS® RACE SKI The race-proven ski for aggressive cornering (not shown)

- » Factory race proven, aggressive 90° snocross keel.
- » Provides improved control and better cornering, reduces darting.
- » Wide tip for increased flotation.
- » Includes ski toe & hardware.
- » Carbide skags required – sold separately – see chart to the right.

2900256-070 | Black, Each

C. POLARIS® SADDLELESS SKI A great upgrade from a steel ski (not shown)

- » Improved control.
- » Precision construction, performance tested.
- » Less handlebar vibration, smoother feeling ride.
- » Includes hardware and ski stop.
- » Carbide skags required – sold separately – see chart to the right.

2874186-070 | Black, Each

D. POLARIS® SKI TOES

- » Fits all Polaris composite skis for that customized sled look.

2876062-293 | Indy Red, Pair

DEEP SNOW SKIS

E. GRIPPER SKI The standard in deep snow performance

- » Deeper upper and lower keel design allows for the best performing ski in loose and hardpacked snow conditions.
- » Integrated traction on top of ski for superior grip.
- » Deep, 1½" keel for positive steering in loose snow.
- » Large, forward biased rocker for reduced steering effort.
- » Wide, 6¾" ski for increased flotation.
- » Includes ski toe & hardware.
- » Carbide skags required – sold separately – see chart to the right.

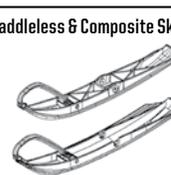

2877679-293 | RMK® Ski - '07-12 | Indy Red, Each

2877679-070 | RMK® Ski - '07-12 | Black, Each

HOW TO GET PURE TRACTION ON ICE AND HARD-PACK SNOW.

Adding traction products to your sled improves acceleration, braking and steering control, especially on hard-pack snow and ice. The more aggressive rider you are, the more traction you need. The key is to have the right balance of traction products on your track and skis.

- 1) Determine how to match your riding style and sled model to the correct number of studs, type of studs and stud pattern.
- 2) Determine the right type and length of turning carbides necessary to balance traction and optimize steering.
- 3) Make sure you have the necessary parts installed to prevent the studs from damaging your sled's tunnel and cooling system.

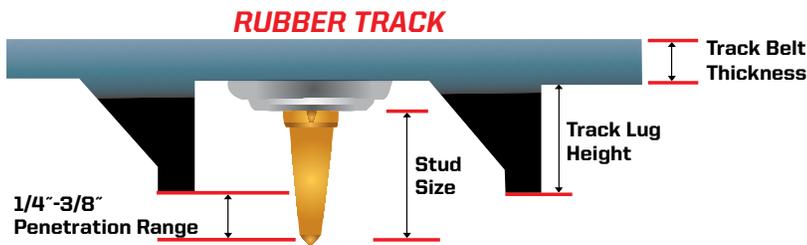

Solution: Ideal Traction

Sled turns like it's on rails. Amount of turning carbide on skis is balanced with the number of track studs.

POLARIS® TECHNOLOGY

STUDS: TRACTION FOR PERFORMANCE & SAFETY.

All Woody's® stud sizes are measured from the top of the Digger® support plate to the tip of the stud. *Woody's recommends .250" to .375" to be optimum penetration. Deviating from this recommendation can result in premature track wear, tunnel damage and/or loss of control.

IMPORTANT! Review the snowmobile and track manufacturer's studding recommendation in your owner's manual. You may void your warranty if their recommendations are not followed. Consult your snowmobile dealer about added tunnel protection.

GO ON-LINE AND USE THE WOODY'S® 6-STEP TRACTION PRODUCT SELECTION TOOL. IT WILL HELP YOU DETERMINE THE PERFECT CARBIDE AND STUDDING SET-UP FOR YOUR EXACT SLED AND RIDING STYLE. [FIND YOUR TRACTION AT WIEM.COM](http://FINDYOURTRACTIONATWIEM.COM)

A. WOODY'S® GRIP KIT STUDS

- » Extra traction on ice and hard-pack snow
- » Optimizes acceleration, control and braking
- » Add safety and performance
- » Includes Woody's® Gold Digger® studs, single stud backer plates, nuts and RUSH® Studding Template

B. SIGNATURE CARBIDE STUDS

- » Highly corrosive resistant for harsh conditions
- » 60° carbide pin for consistent performance
- » Impact resistant one piece head

C. TRACTION MASTER® CARBIDE STUDS

- » High-carbon alloy steel for maximum durability
- » Head is concave to grip rubber track and maximize rigidity for increased traction control
- » Easy push-through design
- » 5/16" diameter shank

D. ALUMINUM SQUARE BACKER PLATE

- » Strong, lightweight alternative to steel
- » Raised crown for dependable support
- » Available for 5/16" studs

E. STEEL ROUND BACKER PLATE

- » Raised crown for dependable support and the prevention of stud pull through

F. STUDDING TEMPLATE AND DRILL BIT

- » For precise placement of traction studs
- » Template allows setting of drilling marks on track surface
- » Holes are clearly labeled and instructions included

SKIS&TRACTION

DEEP SNOW: SERIES 5.1 TRACK »

» Industry leading deep powder track. For 8T Drive sprockets, 2.86" pitch. Available in 146," 155" and 163" lengths.

- » Optimized lug pattern producing 19% more forward lug contact compared to our Series 5.0 track
- » Soft and flexible tips for superior performance in deep snow

DEEP SNOW: SERIES 4 TRACK »

» The standard in 2" deep snow tracks. For 9T Drive sprockets, 2.52" pitch. Available in 144," 151," 159" and 166" lengths.

- » Equal parts versatility and durability
- » Stiff lug base for long wear and hard-pack performance
- » Soft and flexible tips for superior performance in deep snow

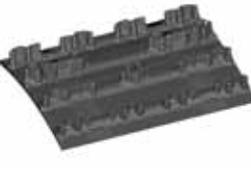

DEEP SNOW: COMPETITION TRACK »

» The proven 2.125" hillclimb track. Available in 146" and 155" lengths.

- » Hillclimb-specific pattern
- » Stiff durometer construction for maximum traction in hard snow
- » Pre-ported for better snow cleanout

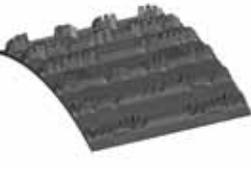

CROSSOVER: COBRA TRACK »

» The trail track that puts more power to the snow. Excellent powder performance without compromising trail ride ability. Available in 120," 121," 136" and 146"

- » Rigid columns for good hard pack capability
- » Stepped columns and angled cutting edge enhance traction, improved handling in corners
- » Connected "cupped" lugs for outstanding performance in soft/loose snow

ON-TRAIL: RIPSAW TRACK »

» The aggressive side bite for better cornering, the standard in performance trail tracks. Available in 120," 121," 128" and 136" lengths.

- » A high-performance trail track with highly aggressive angled profiles
- » Outstanding forward and lateral bite
- » Superior handling and acceleration in wide variety of conditions

PURE POLARIS®: TECHNOLOGY DRIVEN LUBRICANTS

When it comes to maintaining top performance out of your Polaris snowmobile, there is no better choice than Pure Polaris lubricants and fuel. We engineer products that meet the ever evolving technology of today's high-performance engines. Designed and tested in conjunction with motors as they're developed ensures you get an oil perfectly matched for your sled.

PURE POLARIS: THE TECHNOLOGY IS BUILT RIGHT IN

- » Engine Technology: Tighter tolerances, higher operating temperatures and new technologies drive the need for better performing oil
- » Emissions Requirements: The performance levels of today's engines combined with need for low emissions, makes a clean burning oil essential
- » Responding to Customers' needs: Polaris understands the rider and designs oil to meet customer needs with attributes such as easy-start and smokeless/low-odor formulations

A

A. VES RACING SYNTHETIC 2-CYCLE OIL

- » Designed to optimize the performance of VES systems.
- » The best engine and exhaust valve detergency available.
- » Additional anti-wear additive extends ring, cylinder and bearing life.
- » Pre-mix or injection.
- » The oil exclusively used by the factory racing team.

2878243 | Quart | 6 per pack

2878191 | 1 Gallon | 4 per pack

2878244 | 16 Gallon | 1 per pack

2878245 | 55 Gallon | 1 per pack

B

B. VES GOLD PLUS SYNTHETIC 2-CYCLE OIL

- » Best low temp performance of all Pure Polaris® oils.
- » Cleaner burning, low odor, smokeless oil formula.
- » Designed to improve exhaust valve performance.
- » Offers maximum engine protection at high RPM.
- » Meets Category IV low temperature requirements.
- » Pre-mix or injection.

2877882 | Quart | 6 per pack

2877953 | 2 Quart | 8 per pack

2877883 | 1 Gallon | 4 per pack

2877884 | 2.5 Gallon | 2 per pack

2877885 | 16 Gallon | 1 per pack

2877886 | 55 Gallon | 1 per pack

2877892 | 330 Gallon | 1 per pack

C

C. PREMIUM SYNTHETIC BLEND 2-CYCLE OIL

- » Excellent low temperature performance.
- » Most advanced synthetic blend 2-cycle lubricant on the market.
- » Excellent long term engine protection and detergency.
- » Pre-mix or injection.

2875035 | Quart | 12 per pack

2875036 | 1 Gallon | 6 per pack

2875038 | 2.5 Gallon | 2 per pack

2875037 | 16 Gallon | 1 per pack

2875039 | 55 Gallon | 1 per pack

2875040 | 330 Gallon | 1 per pack

WHY PURE POLARIS® VES OILS?

ENHANCED LUBRICITY

This piston shows scuffing which can lead to catastrophic engine failure as a result of the use of an inferior synthetic 2-cycle oil.

NEW PISTON

FAILED PISTON

ENHANCED VALVE CLEANLINESS

When exhaust valves have hard carbon deposits on them, they can stick and eventually seize, greatly reducing performance. VES Racing & Gold Plus minimize carbon deposits.

NEW VALVE

DIRTY VALVE

ENHANCED COLD PULL STARTING

Formulated to provide better starting performance in all conditions – including extreme cold temperatures.

VES RACING & VES GOLD PLUS
65% EASIER TO COLD PULL START
 (measured in lbs. of Pull Force)

POLARIS® TECHNOLOGY

LEARN MORE ABOUT CHOOSING THE RIGHT OIL: WWW.PUREPOLARISOIL.COM

D. PS-4 PLUS SYNTHETIC OIL

- » Full synthetic designed for Polaris 4-stroke engines
- » Excellent cold weather start-ability plus ultimate engine protection in severe operating conditions

2876244 | Quart | 12 per pack
 2877490 | 2 Quart | 8 per pack
 2876245 | 1 Gallon | 4 per pack
 2876247 | 16 Gallon | 1 per pack
 2876246 | 55 Gallon | 1 per pack

E. 4-STROKE OIL CHANGE KIT

- » Kit includes three 1-qt. bottles of premium PS-4 Plus synthetic engine oil, filter and jumper harness

2875522 | FS, FST | 4 Kits per Case

F. PREMIUM ANTI-FREEZE

- » Keeps cooling systems flowing at radical sub-zero temperatures.
- » Formulated specifically for Polaris® snowmobile and ATV aluminum cooling systems.
- » 60/40 pre-mix with deionized water, effective to -62° F.

2871534 | Quart | 12 per pack
 2871323 | Gallon | 6 per pack
 2872278 | 55 Gallon | 1 per pack

G. SYNTHETIC CHAINCASE LUBE

- » Prevents rust, oxidation and corrosion of internal chaincase components.
- » Synthetic formula engineered and tested by Polaris® for snowmobile chains and sprockets.
- » Provides maximum protection for extreme operating temperatures.
- » Low sulfur additive resists thermal break-down.

2873105 | Quart | 12 per pack
 2873106 | Gallon | 4 per pack
 2872952 | 2.5 Gallon | 2 per pack

H. HYDRAULIC BRAKE FLUID

- » Designed for use in Polaris® hydraulic brakes.
- » Superior high temperature characteristics.
- » Anti-corrosive additives extend the life of brake system and ensures consistent, positive braking.

2872189 | DOT 4 12 oz. | 12 per pack

I. GREASE GUN KIT

- » Tough steel construction and pistol grip design.
- » Front and top-pipe outlet mounts accept both 6" rigid pipe nozzle and 12" 12,000 psi flex hose.
- » Comes with standard zerk fitting.

2871312 | Grease Gun Kit | 4 per pack

J. ALL SEASON GREASE

- » Engineered for the pressure and temperature demands of snowmobiles, ATV and watercraft.

2871322 | 3 oz. | 4 packs, 6 per pack
 2871423 | 14 oz. | 10 per pack

K. GAS SHOCK OILS

- » Premium formulas to match every shock.
- » Eliminate fade and freeze up.

2874522 | Walker Evans®† - 5 wt. - Quart | 6 per pack
 2870995 | Premium FOX®† - Quart | 6 per pack
 2872279 | Premium FOX® - 2.5 Gallon | 2 per pack
 2873716 | Premium RydeFX®† - Quart | 6 per pack

L. SHOCK ADJUSTING LUBE

- » Allows for easy spring adjustment.
- » Silicone dry film lubricant.
- » Penetrates shock body threads and lubricates spanner nut and threads maintaining adjustability in extreme cold.

2878018 | Shock Adjusting Lubricant | 1 per pack

POLARIS® TECHNOLOGY

E10 GASOLINE SOLUTIONS

NEW FOR '12

NEW FOR '12

- Formulated specifically for E10 gasoline
- Designed to address the negative aspects of phase separation common in all Ethanol blended gasoline

M. ISOPROPYL FUEL DE-ICER

- » High-tech additive prevents fuel line freezing in extreme cold conditions.
- » Formulated for 2-cycle and 4-cycle Polaris engines.

2870505 | Quart | 12 per pack

N. CARBON CLEAN FUEL TREATMENT

- » Formulated specifically for E10/ethanol gasoline.
- » Dissolves gum & varnish in fuel system.
- » Prevents & cleans carbon in combustion chamber.
- » Excellent fuel stabilizer for storage.
- » Formulated for 2&4-cycle Polaris engines.
- » Absorbs water & stabilizes fuel.

2871326 | 12 oz. | 12 per pack

O. PREMIUM ETHANOL FUEL STABILIZER

- » Prevents fuel oxidation and system corrosion.
- » Significantly reduces gum and varnish formation.
- » Protects fuel system components.
- » Formulated for 2&4-cycle Polaris engines.

2870652 | Quart | 12 per pack
 2872280 | 2.5 Gallon | 2 per pack

P. 112 OCTANE RACING FUEL (not shown)

- » Consistent blend, excellent shelf life.
- » Engineered and tested by the Polaris Factory Race Team to meet the demands of high-horsepower stock and modified racing engines.
- » Legal-stock fuel for most race sanctions; dilute to meet specific octane requirements.
- » Maximum horsepower potential.

2877162 | 16 Gallon | 112 Octane
 2877163 | 55 Gallon | 112 Octane

BELTS

PURE POLARIS®: DRIVE BELTS

- » Engineered, tested and guaranteed to fit and perform on Polaris® machines.
- » Lowest tolerances (0.188") – provide the most consistent performance.
- » Precision measured to ensure stringent tolerances are met for both length and width.

Use Genuine Polaris Belts for maximum performance

COMPOUND AND CONSTRUCTION IDENTIFICATION

STANDARD // GOOD

- Good trail belt for lower horsepower engines
- Best suited for low speed operation

CVT // BETTER

- Increased service life over Standard belts
- May need 1-2 grams heavier drive clutch weight over Standard belts

KEVLAR® // BEST

- Increased service life over CVT belts by up to 8 times
- Cut edges belt; consistent like PBO belts
- Short break-in period
- May need 1-2 grams heavier drive clutch weight over CVT belts

PBO // ULTIMATE

- Extreme duty belt; longest service life
- CNC ground edges on each belt
- Longer break-in period

3211114	1.438" (36.53mm)	26	10.625"	45.20"	PBO – double cog, ground / sanded finish

*Belt dimensions are given in nominal dimensions. There is a +/- variance for all critical dimensions. Clutch setup must be inspected when a new belt is installed and should be adjusted if necessary. The drive belt is an important component in the CVT system. In order to achieve maximum efficiency from the converter, drive belt deflection (tension), clutch offset and alignment must be adjusted properly. See your Service Manual for further details on drive belt measurement inspection.

» ENCLOSED SNOW TRAILERS

Polaris® enclosed snowmobile trailers incorporate quality, style and versatility into every model in the lineup. Both lightweight and aerodynamic, these trailers will outlast and outperform the competition, for years down the road.

» Materials and Components: Enclosed snowmobile trailers feature all aluminum box tube construction, torsion ride axles, .030" exterior panels, seamless aluminum roof skins and tapered ramp doors for easy loading and unloading of your sleds and gear.

» Models & Sizes: Enclosed trailers are offered in both 101" (Side-by-Side) and 7" (Inline) box widths, with standard lengths from 10 to 22'.

» OPEN SNOW TRAILERS

The Polaris® line of open snow trailers is manufactured with the true enthusiast in mind. Streamlining the loading and unloading process, these trailers will let you spend more time on the trail and less time at the truck.

» Materials and Components: Featuring all aluminum box tube construction, Marine Tech *Aqua Ply* decking, powder coated wheels and a fully-adjustable tie down system, Polaris open snow trailers are built to withstand the best that you (or Mother Nature) can throw at them.

» Models & Sizes: Available in both tilting and drive-on/drive-off configurations, open snow model lengths range from 10 to 20', with capacities for 2 to 4 snowmobiles.

» SPORT DECKS

The Polaris® Sport Deck is designed to enhance the versatility of your truck. Mounting easily in the bed of any make or model, you'll find yourself exploring new terrain that was once unreachable while towing a trailer.

» Materials and Components: Each Sport Deck comes standard with an integrated anchor system, full-length tie down channel, 11' telescoping rear ramp and a removable headache rack. Upgrade to powdercoated framework for the extra "icing on the cake."

» Models & Sizes: Polaris® Sport Decks are built standard with a 101" deck width. Optional sliding sides effectively reduce the deck's bulk while not in use.

MANUFACTURED BY:

ALCOM® Inc. is North America's fastest growing aluminum trailer manufacturer. With a distribution network spanning the continental United States and Canada, ALCOM® produces a number of nationally recognized brands including Polaris® Trailers. Offering towing solutions tailored to the snowmobile, ATV/UTV and motorcycle markets, there is no better way to haul your Polaris® or Victory® machines, than with a Polaris® trailer built by ALCOM® Inc.
